- A) Hemolytic
- B) Diabetic
- C) Iatrogenic
- D) Iron deficiency

Answer: C

14) Which phase of the laboratory process involves the duty of requesting a repeat blood test?

- A) Preamalytical
- B) Analytical
- C) Postanalytical
- D) Specimen processing

Answer: C

15) Maintaining Quality Control on phlebotomy supplies and equipment is part of which phase of laboratory testing?

- A) Preamalytical
- B) Examination
- C) Postexamination
- D) Postanalytical

Answer: A

16) Which phase of the laboratory process involves performing a chemical assay on a serum specimen?

- A) Preamalytical
- B) Analytical
- C) Postanalytical
- D) Reporting results

Answer: B

17) Which phase of the laboratory process involves correct labeling of each specimen tube after the blood specimen is collected from a patient?

- A) Preexamination
- B) Examination
- C) Postexamination
- D) Reporting results

Answer: A

18) Why should a phlebotomist locate the nearest bed when taking blood samples in a patient's home?

- A) Because the patient will be located in the bed
- B) In case the patient needs to be transported to the hospital
- C) In case the patient becomes faint
- D) So the phlebotomy equipment can be laid out on a single surface

Answer: C

19) When performing inventory on blood collection supplies, the supplies should be organized by:

- A) expiration date.
- B) ease of use.
- C) volume of blood the tubes hold.
- D) laboratory department that uses each tube.

Answer: A

20) Which type of quality control tool is used to record the frequency of a problematic event?

- A) Cause and effect diagram
- B) PDCA cycle
- C) Flow chart
- D) Pareto chart

Answer: D

1.2 Matching Questions

Match each lettered word or phrase to the most appropriate numbered word or phrase. The letters may be used more than once.

- A) STAT
- B) personal space
- C) OSHA
- D) alcohol based gel
- E) POCT
- F) DOB
- G) ASCP
- H) social space
- I) AARP
- J) values and beliefs

- 1) 4—12 feet
- 2) Point-of-care testing
- 3) up to 18 inches
- 4) emergency
- 5) birthdate
- 6) professional organization/certification agency
- 7) advocacy group for the elderly
- 8) used for hand hygiene
- 9) federal agency
- 10) culture

Answers: 1) H 2) E 3) B 4) A 5) F 6) G 7) I 8) D 9) C 10) J

1.3 Fill in the Blanks Questions

1) Point-of-care testing refers to laboratory tests performed at or near _____.

Answer: the patient
