Test Bank

TRUE/FALSE

1 : Tomas owns a sole proprietorship, and Lucy is the sole shareholder of a C corporation. In the current year, both businesses make a net profit of \$60,000. Neither business distributes any funds to the owners in the year. For the current year, Tomas must report \$60,000 of income on his individual tax return, but Lucy is not required to report any income from the corporation on her individual tax return.

A : true

B : false

Correct Answer : A

2 : Carol and Candace are equal partners in Peach Partnership. In the current year, Peach had a net profit of \$75,000 (\$250,000 gross income – \$175,000 operating expenses) and distributed \$25,000 to each partner. Peach must pay tax on \$75,000 of income.

A : true

B : false

Correct Answer : B

3 : Rajib is the sole shareholder of Cardinal Corporation, a calendar year S corporation. In the current year, **Cardinal generated a** net profit of \$350,000 (\$520,000 gross income – \$170,000 operating expenses) and distributed \$80,000 to Rajib. Rajib must report **the Cardinal Corporation** profit of \$350,000 on his Federal income tax return.

A : true

B : false

Correct Answer : A

4 : Donald owns a 45% interest in a partnership that earned \$130,000 in the current year. He also owns 45% of the stock in a C corporation that earned \$130,000 during the year. Donald received \$20,000 in distributions from each of the two entities during the year. With respect to this information, Donald must report \$78,500 of income on his individual income tax return for the year.

A : true

B : false

Correct Answer : A

5 : Quail Corporation is a C corporation **that generates** net income of \$125,000 during the current year. If Quail paid dividends of \$25,000 to its shareholders, the corporation must pay tax on \$100,000 of net income. Shareholders must report the \$25,000 of dividends as income.

A : true

B : false

Correct Answer : B

6 : Eagle Company, a partnership, had a short-term capital loss of \$10,000 during the current year. Aaron, who owns 25% of Eagle, will report \$2,500 of Eagle's short-term capital loss on his individual tax return.

A : true

B : false

Correct Answer : A

7 : Matt, the sole shareholder of Pastel Corporation (a C corporation), has the corporation pay him a salary of \$600,000 in the current year. The Tax Court has held that \$200,000 represents unreasonable compensation. Matt must report a salary of \$400,000 and a dividend of \$200,000 on his individual tax return.

A : true

B : false

Correct Answer : A

8 : Double taxation of corporate income results because dividend distributions are included in a shareholder's gross income and are not deductible by the corporation.?

A : true

B : false

Correct Answer : A

9 : Jake, the sole shareholder of Peach Corporation (a C corporation) has the corporation pay him \$100,000. For income tax purposes, Jake would prefer to have the payment treated as a dividend instead of salary.

A : true

B : false

Correct Answer : A

10 : Thrush Corporation files its Form 1120, which reports taxable income of \$200,000 in the current year. The corporation's tax is \$42,000.

A : true

B : false

Correct Answer : A

11 : The corporate marginal income tax rate is lower than the top individual tax rate.

A : true

B : false

Correct Answer : A

12 : Employment taxes apply to all entity forms of operating a business. As a result, employment taxes are a neutral factor in selecting the most tax effective form of operating a business.

A : true

B : false

Correct Answer : B

13 : Under the check-the-box Regulations, a two-owner LLC that fails to elect to be to treated as a corporation will be taxed as a sole proprietorship.

A : true

B : false

Correct Answer : B

14 : A C corporation with taxable income of \$100,000 in the current year will have a tax liability of \$22,250.

A : true

B : false

Correct Answer : B

15 : Katherine, the sole shareholder of Penguin Corporation, has the corporation pay her a salary of \$300,000 in the current year. The Tax Court has held that \$90,000 represents unreasonable compensation. Katherine has avoided double taxation only to the extent of \$210,000 (the portion of the salary that is considered reasonable compensation).

A : true

B : false

Correct Answer : A

16 : One of the purposes of the qualified business income deduction is to reduce the taxes on businesses that are operating in noncorporate business forms (e.g., sole proprietors, partnerships, and S corporations).

A : true

B : false

Correct Answer : A

17 : Instead of providing the qualified business income deduction to owners of noncorporate businesses, Congress could have applied a special tax rate to the business income to achieve a similar result.

A : true

B : false

Correct Answer : A

18 : A qualified trade or business includes any trade or business including providing services as an employee.

A : true

B : false

Correct Answer : B

19 : Unless Congress makes a change, the QBI deduction is set to expire after 2025.

A : true

B : false

Correct Answer : A

20 : The QBI deduction percentage matches the 21% tax rate applicable to C corporations.

A : true

B : false

Correct Answer : B

21 : Code § 199A permits an individual to deduct 25% of the qualified business income generated through a sole proprietorship, a partnership, or an S corporation.

A : true

B : false

Correct Answer : B

22 : There are three limitations on the qualified business income deduction: an overall limitation (based on modified taxable income), another that applies to high income taxpayers, and a third that applies to certain types of service businesses.

A : true

B : false

Correct Answer : A

23 : The QBI deduction will reduce both the income tax and self-employment taxes owed by a self-employed individual.

A : true

B : false

Correct Answer : B

24 : Qualified business income (QBI) is defined as the ordinary income less ordinary deductions that a taxpayer earns from a qualified trade or business (e.g., from a sole proprietorship, S corporation, or partnership) conducted in the United States by the taxpayer.

A : true

B : false

Correct Answer : A

25 : Jane is a self-employed attorney and single. Her annual net earnings from her law practice always exceed \$220,000. Jane also has a business selling stained glass windows that she makes. Her earnings from this business are usually about \$35,000 per year. Jane claims the standard deduction. Because Jane's 2019 taxable income exceeds the \$210,700 threshold, she may not claim a QBI deduction for either business.

A : true

B : false

Correct Answer : B

26 : Qualified business income includes the reasonable compensation paid to the taxpayer by a qualified trade or business and guaranteed payments made to a partner for services rendered.

A : true

B : false

Correct Answer : B

27 : Ginger is a self-employed driver finding rides via a few different platform companies such as Lyft. She is single and claims the \$12,000 standard deduction. For 2019, her income from driving is \$67,000 and she has no other income. Ginger's QBI deduction for 2019 is \$13,400.

A : true

B : false

Correct Answer : B

28 : A partnership will need to report wages paid to its employees as a separate line item on Schedule K-1 to help partners calculate their QBI deduction.

A : true

B : false

Correct Answer : A

29 : Qualified property is used to determine one of the limitations to the qualified business income (QBI) deduction. Specifically, 2.5% of the unadjusted basis (immediately after acquisition) of qualified property is added to 50% of W-2 wages to determine this limitation.

A : true

B : false

Correct Answer : B

30 : Once a taxpayer reaches certain taxable income thresholds, § 199A limits the qualified business income (QBI) deduction. These thresholds (\$321,400 for married taxpayers filing jointly and \$160,700 for all other taxpayers in 2019) are indexed for inflation every year.

A : true

B : false

Correct Answer : A

31 : For purposes of the qualified business income (QBI) deduction, qualified business income does not include certain types of investment income [e.g., capital gains or capital losses, dividends, and interest income (unless properly allocable to a trade or business, such as lending)].

A : true

B : false

Correct Answer : A

32 : Carla is a self-employed online retailer and single. She has no employees. Her annual taxable income is usually around \$200,000. Carla could increase her QBI deduction if she incorporated her business, made an S election, and paid herself wages.

A : true

B : false

Correct Answer : A

SHORT RESPONSE

33 : Rebecca and Brad are married and will file jointly. Rebecca earns \$300,000 from her single-member LLC (a law firm). She reports her business as a sole proprietorship. Wages paid by the law firm amount to \$40,000; the law firm has no significant property. Brad is employed as a tax manager by a local CPA firm. Their modified taxable income is \$381,400 (this is also their taxable income before the deduction for qualified business income). Determine their QBI deduction for 2019.

Correct Answer : Normally, Rebecca and Brad would be entitled to a QBI deduction of \$60,000 (\$300,000 x 20%). But since their taxable income exceeds the threshold for married taxpayers (\$321,400), and Rebecca's QBI is from a specified services business (a law firm), their QBI deduction is limited to \$14,400, computed as follows: (1) Determine applicable percentage: applicable percentage = $100\% - \frac{\$60,000}{\$381,400 - \$321,400}$
 $\frac{\$100,000}{\$100,000} = 40\%$ (2) Determine QBI deduction: 1. 20% of QBI (\$300,000 x 20%) \$60,000 x Applicable percentage x 40% \$24,000 2. But no more than the greater of: 50% of W-2 wages (\$40,000 x 50% x 40%), or \$ 8,000 25% of W-2 wages (\$40,000 x 25% x 40%) plus \$4,000 2.5% of the unadjusted basis of qualified property (\$0- x 2.5% x 40%) -0- \$ 4,000? Because Rebecca and Brad's modified taxable income exceeds \$321,400, but is less than \$421,400 and the W-2 Wages/Capital portion of the computation is the limiting factor, the general 20% QBI amount is used, but reduced as follows: (1) Determine difference between the general 20% QBI deduction amount and the W-2 Wages/Capital amount.
General 20% QBI deduction amount \$ 24,000 Less: The W-2 Wages/Capital Investment limit(8,000) Excess \$16,000 (2) Determine the reduction ratio: reduction ratio = $\frac{\$60,000}{\$381,400 - \$321,400} = 60\%$
\$100,000 (3) Determine the reduction in the W-2 Wages/Capital Investment limit: Excess (\$16,000) x reduction ratio (60%) = \$9,600 (4) Determine final QBI amount: General 20% QBI deduction amount \$24,000 Less: Reduction in the W-2 Wages/Capital limit(9,600) Final QBI amount \$14,400????

34 : Ashley (a single taxpayer) is the owner of ABC, LLC. The LLC (a sole proprietorship) reports QBI of \$900,000 and is not a specified services business. ABC paid total W-2 wages of \$300,000, and the total unadjusted basis of property held by ABC is \$30,000. Ashley's taxable income before the QBI deduction is \$740,000 (this is also her modified taxable income). What is Ashley's QBI deduction for 2019?

Correct Answer : As Ashley's taxable income before the QBI deduction exceeds the \$210,700 threshold, the W-2 Wages/Capital Investment Limit must be considered. Ashley's QBI deduction is \$148,000, computed as follows: 1. 20% of QBI (\$900,000 x 20%) \$180,000 2. But no more than the greater of: 50% of W-2 wages (\$300,000 x 50%), or \$150,000 25% of W-2 wages (\$300,000 x 25%) plus \$ 75,000 2.5% of the unadjusted basis of qualified property (\$30,000 x 2.5%) 750 \$ 75,750 And, no more than: 3. 20% of modified taxable income (\$740,000 x 20%) \$148,000??

35 : Susan, a single taxpayer, owns and operates a bakery (as a sole proprietorship). The business is not a specified services business. In 2019, the business pays \$60,000 in W-2 wages, has \$150,000 of qualified property, and \$200,000 in net income (all of which is qualified business income). Susan also has a part-time job earning wages of \$11,000, receives \$3,200 of interest income, and will take the standard deduction. What is Susan's qualified business income deduction?

Correct Answer : Susan's taxable income before the QBI deduction is \$202,000 (her proprietorship net income of \$200,000 plus her wages of \$11,000 and her \$3,200 of interest income less her \$12,200 standard deduction). Because Susan's taxable income before the QBI deduction exceeds \$160,700, the W-2 Wages/Capital Investment limit must be considered: 1. 20% of QBI (\$200,000 x 20%) \$ 40,000 2. But no more than the greater of: 50% of W-2 wages (\$60,000 x 50%), or \$ 30,000 25% of W-2 wages (\$60,000 x 25%) plus \$ 15,000 ? 2.5% of the unadjusted basis of qualified property (\$150,000 x 2.5%) 3,750 \$ 18,750 And, no more than: 3. 20% of modified taxable income (\$202,000 x 20%) \$ 40,400? So, initially, Susan's QBI deduction is limited to \$30,000. However, as Susan's taxable income before the QBI deduction exceeds \$160,700, but is less than \$210,700 and the W-2 Wages/Capital Investment portion of the computation is the limiting factor, the general 20% QBI amount is used, but reduced as follows: (1) Determine difference between the

general 20% QBI deduction amount and the W-2 Wages/Capital amount. General 20% QBI deduction amount \$40,000 Less: The W-2 Wages/Capital limit (30,000) Excess \$10,000 (2) Determine the reduction ratio: $\text{reduction ratio} = \frac{\$40,000}{\$202,000 - \$160,700} = 82.6\%$ (3) Determine the reduction in the W-2 Wages/Capital Limit: $\text{excess } (\$10,000) \times \text{reduction ratio } (82.6\%) = \$8,260$ (4) Determine Final QBI Amount: General 20% QBI deduction amount \$40,000 Less: Reduction in the W-2 Wages/Capital limit (8,260) Final QBI Amount \$31,740???

36 : Ben owns and operates a machine repair shop as a sole proprietorship. It generates a profit of about \$150,000 annually. The business pays wages of about \$50,000 annually. The building and most of the equipment are leased so there is no qualified property. Ben files as single and claims the standard deduction. He has a large unrealized gain in bitcoin that he acquired in 2014 and is wondering when he should sell it and whether he should sell it all in one year or over a few years. Advise Ben as to how the sale of the bitcoin and its resulting capital gain can affect his QBI deduction in 2019.

Correct Answer : The capital gain will increase Ben's taxable income to the point that it could exceed \$160,700. At that point, his QBI deduction will be limited to 50% of the W-2 wages paid (\$25,000). If taxable income remains at \$160,700 or less, his QBI deduction will be 20% of his income from the repair business (\$30,000). Ben might want to sell all of the bitcoin in one year rather than over several years if doing so prevents his taxable income from exceeding \$160,700 and thereby imposing a limit on his QBI deduction.

37 : Sergio Fernandez owns and manages his single-member LLC which provides a wide variety of accounting services to his clients. He is married and will file a joint tax return with his spouse, Goretty. His LLC reports \$250,000 of net income, W-2 wages of \$120,000, and assets with an unadjusted basis of \$75,000. Their taxable income before the QBI deduction is \$215,000 (this is also their modified taxable income). Determine their QBI deduction for 2019.

Correct Answer : Even though this is a "specified services" business, Sergio and Goretty's taxable income before the QBI deduction is below the \$321,400 threshold in 2019. As a result, their QBI deduction is \$43,000, computed as follows: 1. 20% of qualified business income (\$250,000 x 20%), or \$50,000 2. 20% of modified taxable income (\$215,000 x 20%) \$43,000

38 : Taylor owns a wide variety of commercial rental properties held in a single-member LLC. Her LLC reports rental income of \$750,000. The LLC pays no W-2 wages; rather, it pays a management fee to an S corporation that Taylor controls. The management company pays W-2 wages, but reports no income (or loss). Taylor's total unadjusted basis of the commercial rental property is \$5,000,000 and her taxable income before the QBI deduction (and his modified taxable income) is \$1,000,000. What is Taylor's QBI deduction for 2019?

Correct Answer : Because Taylor's modified taxable income exceeds the \$421,400 threshold in 2019, the W-2 Wages/Capital Investment Limit comes into play. Taylor's QBI deduction is \$125,000, computed as follows: ? 1. 20% of qualified business income (\$750,000 x 20%) \$150,000 2. But no more than the greater of: -0% of W-2 wages (\$0- x 50%), or \$ -0- -25% of W-2 wages (\$0- x 25%) plus \$ -0- -2.5% of the unadjusted basis of qualified property (\$5,000,000 x 2.5%) 125,000 ?\$ 125,000 And, no more than: 3. 20% of modified taxable income (\$1,000,000 x 20%) \$ 200,000 ??

39 : Jansen, a single taxpayer, owns and operates a restaurant (as a sole proprietorship). The business is not a specified services business. In 2019, the business pays \$125,000 in W-2 wages, has \$187,500 of qualified property, and \$437,500 in net income (all of which is qualified business income). Jansen has no

other items of income or loss and will take the standard deduction. What is Jansen's qualified business income deduction?

Correct Answer : Jansen's taxable income before the QBI deduction is \$425,300 (his proprietorship net income less the \$12,200 single standard deduction); this is also his modified taxable income. Because Jansen's taxable income before the QBI deduction exceeds the \$210,700 threshold, the W-2 Wages/Capital Investment limit must be considered. Jansen's QBI deduction is \$62,500, computed as follows: 1. 20% of qualified business income (\$437,500 x 20%)\$ 87,500 2. But no more than the greater of: 50% of W-2 wages (\$125,000 x 50%), or\$ 62,500 25% of W-2 wages (\$125,000 x 25%) plus \$31,250 2.5% of the unadjusted basis of qualified property (\$187,500 x 2.5%) 4,688 \$ 35,938 And, no more than: 3. 20% of modified taxable income (\$425,300 x 20%)\$ 85,060 ?

40 : Jansen, a single taxpayer, owns and operates a restaurant (as a sole proprietorship). The business is not a specified services business. In 2019, the business pays \$125,000 in W-2 wages, has \$187,500 of qualified property, and \$437,500 in net income (all of which is qualified business income). Jansen has no other items of income or loss and will take the standard deduction. What is Jansen's qualified business income deduction?

Correct Answer : a. Under Prop. Reg. § 1.199A-1(d), Felicia must allocate Business B's negative QBI to Business A and Business C in proportion to their positive QBI amounts (\$240,000 for Business A; \$120,000 for Business C). As a result, the negative QBI from Business C is apportioned 66.66% to Business A and 33.33% to Business C. So \$(72,000) is apportioned to Business A and \$(36,000) to Business C. Business Adjusted QBI W-2 Wages Capital Investment A \$168,000 (\$240,000 – \$72,000) \$72,000 \$ -0- B \$ -0- [(\$108,000) + \$108,000] \$48,000 \$ -0- C \$84,000 (\$120,000 - \$36,000) \$ -0- \$ -0- Felicia now applies the "W-2 Wages" limitation by determining the lesser of 20% of QBI and 50% of W-2 wages for each business. Business QBI x 20% W-2 Wages x 50% Lesser A \$33,600 (\$168,000 x 20%) \$36,000 \$33,600 B \$ -0- \$24,000 \$ -0- C \$16,800 (\$84,000 x 20%) \$ -0- \$ -0- Felicia's "combined qualified business income amount" is \$33,600 (\$33,600 + \$ -0- + \$ -0-). Because this amount is less than 20% of Felicia's modified taxable income (\$60,800; \$304,000 x 20%), Felicia's QBI deduction is \$33,600 and her taxable income is \$270,400. There is no carryover of any loss into the following taxable year for purposes of § 199A (the Business B negative QBI was completely used). b. Because Felicia's taxable income is above the threshold amount, her QBI deduction is subject to the W-2 wages and capital investment limitations. Because the businesses are aggregated, these limitations are applied on an aggregated basis. Business QBI W-2 Wages Capital Investment A \$240,000 \$72,000 \$ -0- B \$(108,000) \$48,000 \$ -0- C \$120,000 \$ -0- \$ -0- Total \$252,000 \$120,000 \$ -0- None of the businesses own "qualified property." As a result, only the "W-2 Wages" limitation applies. Felicia's "combined qualified income amount" is \$50,400, the lesser of 20% of the QBI from the aggregated businesses (\$50,400; \$252,000 x 20%), or 50% of W-2 wages from the aggregated businesses (\$60,000; \$120,000 x 50%). Felicia's QBI deduction is equal to the lesser of \$50,400 or 20% of her modified taxable income (\$60,800; \$304,000 x 20%). As a result, Felicia's QBI deduction is \$50,400, and her taxable income is \$253,600. By aggregating her businesses, Felicia has increased the size of her QBI deduction.?

MULTIPLE CHOICE

41 : Luis is the sole shareholder of a regular C corporation, and Eduardo owns a proprietorship. In the current year, both businesses make a profit of \$80,000, and each owner withdraws \$50,000 from his business. With respect to this information, which of the following statements is

incorrect?

- A : Eduardo must report \$80,000 of income on his return.
- B : Luis must report \$80,000 of income on his return.
- C : Eduardo's proprietorship is not required to pay income tax on \$80,000.
- D : Luis's corporation must pay income tax on \$80,000.
- E : None of these.

Correct Answer : B

42 : Which of the following statements is incorrect about LLCs and the check-the-box Regulations?

- A : If an LLC with more than one owner does not make an election, the entity is taxed as a corporation.
- B : All 50 states have passed laws that allow LLCs.
- C : An entity with more than one owner and formed as a corporation cannot elect to be taxed as a partnership.
- D : If an LLC with one owner does not make an election, the entity is taxed as a sole proprietorship.
- E : An LLC with one owner can elect to be taxed as a corporation.

Correct Answer : A

43 : An individual in a specified service business, such as accounting, with taxable income over the threshold amounts (\$210,700, or \$421,400 if married filing jointly in 2019), will not lose the QBI deduction on such income if:

- A : Taxable income exceeds the thresholds due to income of a spouse.
- B : Taxable income did not exceed the thresholds in the prior three years.
- C : Taxable income exceeds the thresholds because of net capital gain income.
- D : None of these.

Correct Answer : D

44 : In 2019, Sam and Betty, each single, both generate sole proprietor income of \$240,000. Sam's income is generated from a wholesale business whereas Betty's is earned from her law practice. Neither has any employees or qualified assets. Both claim the standard deduction and have other income equal to the standard deduction amount.

- A : Both Sam and Betty will have a QBI deduction of \$48,000.
- B : Sam can obtain a QBI deduction, but Betty cannot because of the taxable income level and law practice is a specified service business.
- C : Neither Sam nor Betty will generate a QBI deduction due to their taxable income levels.
- D : None of these.

Correct Answer : C

45 : Tammy has \$200,000 of QBI from her neighborhood clothing store (a sole proprietorship). Her proprietorship paid \$30,000 in W-2 wages and has \$20,000 of qualified property. Tammy's spouse earned \$50,000 of wages as an employee, and the couple earned \$20,000 of interest income during the year and will be filing jointly. What is their QBI deduction for 2019?

- A : \$-0-.
- B : \$40,000.
- C : \$50,000.
- D : \$54,000.
- E : None of these.

Correct Answer : B

46 : Jenna Parker owns and manages her single-member LLC, which provides a wide variety of financial services to her clients. She is married and will file a joint tax return with her spouse, Paul. Her LLC reports \$300,000 of net income, W-2 wages of \$120,000, and assets with an unadjusted basis of \$75,000. Their taxable income before the QBI deduction is \$285,000 (this is also their modified taxable income). What is their QBI deduction for 2019?

- A : \$-0-.
- B : \$57,000.
- C : \$60,000.
- D : \$70,000.
- E : None of these.

Correct Answer : B

47 : Ellie (a single taxpayer) is the owner of ABC, LLC. The LLC (a sole proprietorship) reports QBI of \$900,000 and is not a specified services business. ABC paid total W-2 wages of \$300,000, and the total unadjusted basis of property held by ABC is \$30,000. Ellie's taxable income before the QBI deduction is \$740,000 (this is also her modified taxable income). What is Ellie's QBI deduction for 2019?

- A : \$75,750.
- B : \$148,000.
- C : \$150,000.
- D : \$180,000.
- E : None of these.

Correct Answer : B

48 : Danielle is a partner in and sales manager for DG Partners, a domestic business that is not a specified service trade or business. During the tax year, she receives guaranteed payments of \$250,000 from DG Partners for her services to the partnership as its sales manager. In addition, her distributive share of DG Partners' ordinary income (its only item of income or loss) was \$175,000. What is Danielle's qualified business income?

- A : \$-0-.
- B : \$175,000.
- C : \$250,000.
- D : \$425,000.
- E : None of these.

Correct Answer : B

49 : Aaron is the sole shareholder and CEO of ABC, Inc., an S corporation that is a qualified trade or business. During the current year, ABC has net income of \$325,000 after deducting Aaron's \$100,000 salary. In addition to his compensation, ABC pays Aaron dividends of \$250,000. What is Aaron's qualified business income?

- A : \$-0-.
- B : \$100,000.
- C : \$250,000.
- D : \$325,000.
- E : None of these.

Correct Answer : D

50 : Alicia is the sole shareholder and CEO of ABC, Inc., an S corporation that is a qualified trade or business. During the current year, ABC has net income of \$325,000 after deducting Alicia's \$100,000

salary. In addition to her compensation, ABC pays Alicia dividends of \$250,000. After reviewing comparable companies, you determine that reasonable compensation for someone with her experience and responsibilities is \$200,000. What is Alicia's qualified business income?

- A : \$-0-.
- B : \$200,000.
- C : \$225,000.
- D : \$325,000.
- E : None of these.

Correct Answer : C

51 : Taylor, a single taxpayer, has taxable income before the QBI deduction of \$190,700. A CPA, he operates an accounting practice as a single-member LLC (which he reports as a sole proprietorship). During 2019, his proprietorship reports net income of \$150,000, W-2 wages of \$125,000, and \$10,000 of qualified property. What is Taylor's qualified business income deduction?

- A : \$-0-.
- B : \$12,000.
- C : \$30,000.
- D : \$31,500.
- E : None of these.

Correct Answer : C

52 : Jason and Paula are married. They file a joint return for 2019 on which they report taxable income before the QBI deduction of \$200,000. Jason operates a sole proprietorship, and Paula is a partner in the PQRS Partnership. Both are a qualified trade or business and neither is a specified services business. Jason's sole proprietorship reports \$150,000 of net income, W-2 wages of \$45,000, and has qualified property of \$50,000. Paula's partnership reports a loss for the year, and her allocable share of the loss is \$40,000. The partnership reports no W-2 wages and Paula's share of the partnership's qualified property is \$20,000. What is their qualified business income deduction for the year?

- A : \$-0-.
- B : \$11,750.
- C : \$22,000.
- D : \$30,000.
- E : None of these.

Correct Answer : C

53 : Tanuja Singh is a CPA and operates her own accounting firm (Singh CPA, LLC). As a single-member LLC, she reports her accounting firm operations as a sole proprietor. Tanuja has QBI from her accounting firm of \$540,000, reports W-2 wages of \$156,000, and the unadjusted basis of property used in the LLC is \$425,000. Tanuja is married and will file a joint tax return with her spouse. Their taxable income before the QBI deduction is \$475,000, and their modified taxable income is \$448,000. What is Tanuja's QBI deduction for 2019.

- A : \$-0-.
- B : \$49,625.
- C : \$78,000.
- D : \$89,600.
- E : None of these.

Correct Answer : A

54 : Which of the following types of income are included in qualified business income (QBI)?

A : Income generated from a qualified trade or business.

B : Guaranteed payments made in compensation for services performed by a partner to a partnership.

C : Wages paid to an employee.

D : Income earned from foreign business operations.

E : All of these.

Correct Answer : A

55 : What happens to the § 199A deduction if a qualified trade or business generates a loss?

A : If the net amount of income, gain, deduction, and loss is less than zero, the net amount of the deduction can be carried back to a previous year or the taxpayer can elect to carry it forward.

B : If the net amount of income, gain, deduction, and loss is less than zero, the net amount of the deduction is lost and is not available to carryforward or carryback.

C : If the net amount of income, gain, deduction, and loss is less than zero, the net amount is treated as a loss in the succeeding year.

D : None of these.

Correct Answer : C

56 : Where is the § 199A deduction taken on Form 1040?

A : It is a deduction *from* AGI, much like the standard deduction or itemized deductions, and is the last deduction taken in determining taxable income.

B : It is a business deduction and is taken on Schedule C (Form 1040).

C : It is a deduction that reduces self-employment income and is taken on Schedule SE (Form 1040).

D : It is an itemized deduction taken on Schedule A (Form 1040).

E : None of these.

Correct Answer : A

57 : Which of the following is considered qualified property in the calculation of the deduction for qualified business income (§ 199A)?

A : All business property (both tangible and intangible).

B : Tangible business property subject to depreciation.

C : Tangible property placed in service during the year, but not used in the production of qualified business income.

D : Fully depreciated tangible business property.

Correct Answer : B

58 : In 2019, Kendra has taxable income before the QBI deduction of \$274,000. Kendra is single and has income from her law firm (a sole proprietorship operating as an LLC) of \$200,000. Her law firm paid wages of \$82,000 and has qualified property of \$20,000. What is Kendra's QBI deduction?

A : \$0.

B : \$21,000.

C : \$40,000.

D : \$41,000.

E : \$54,800.

Correct Answer : A

MULTIPLE ANSWER

59 : Which of the following taxpayers is eligible for a qualified business income deduction regarding the activity noted? (circle all that apply)

- A : Tom's Burger Place, a sole proprietorship.
- B : A driver for Uber or Lyft.
- C : An employee working for Apple, Inc.
- D : Apple, Inc.
- E : A partner of a Big 4 firm.

Correct Answer : E

60 : Which of the following taxpayers is potentially eligible for a qualified business income deduction based on the noted activity? (circle all that apply)

- A : A shareholder of General Electric.
- B : A sole proprietor operating a restaurant.
- C : A self-employed doctor.
- D : Jennifer, owner of a winery operated as an S corporation.
- E : The Red Cross (a charitable organization).

Correct Answer : E

61 : Which of the following self-employed individuals are in a specified service trade or business? (circle all that apply)

- A : Dentist.
- B : Consultant.
- C : Architect.
- D : CPA.
- E : None of these.

Correct Answer : E

63 : Dawn is the sole shareholder of Thrush Corporation, a C corporation. In the current year, Thrush earned \$350,000 and distributed \$75,000 to Dawn. Kirk is the sole shareholder of Swallow Corporation, an S corporation. In the current year, Swallow earned \$350,000 and distributed \$75,000 to Kirk. Contrast the tax treatment of Thrush Corporation and Dawn with the tax treatment of Swallow Corporation and Kirk.

Correct Answer : A C corporation is a separate taxable entity; thus, Thrush Corporation is taxed on the \$350,000 of earnings. Income of a C corporation has no effect on the shareholders until such time a dividend is paid. When dividends are paid, shareholders must report dividend income on their tax returns. Thus, Dawn is taxed on \$75,000 of dividends, and the 0%/15%/20% preferential tax rate applies with respect to the dividends. Generally, an S corporation is not subject to an entity-level Federal income tax. Instead, the corporation's income, gains, deductions, and losses are passed through to and reported by the shareholders on their tax returns. Thus, Swallow reports the \$350,000 of earnings on its tax return (Form 1120S) but pays no income tax. Kirk is taxed on the \$350,000 of earnings from Swallow on his individual income tax return (Form 1040). Distributions from S corporations are not taxable to the shareholder (to the extent of stock basis). Thus, Kirk is not taxed on the \$75,000 distribution from Swallow.

64 : What is a limited liability company? What favorable nontax and tax attributes does the LLC entity form offer taxpayers?

Correct Answer : Similar to the corporate entity form, a limited liability company is an entity created under the laws of a specific state (or the District of the Columbia) and, pursuant to such laws, an LLC has the corporate feature of limited liability. This is the primary nontax characteristic that makes LLC status attractive. Other nontax attributes that are available with the LLC entity form include centralized management, continuity of life, and free transferability of ownership interests. Which of these nontax attributes are allowed will be dependent on the laws of the state of LLC organization. The principal tax advantage of the LLC entity form is the ability to avoid double taxation of the entity's profits. Most LLCs will be taxed as either partnerships (two or more owner LLCs) or sole proprietorships (one-owner LLCs), although the check-the-box Regulations do provide the opportunity to have an LLC taxed as a corporation (including an S corporation).

65 : The qualified business income deduction is severely limited for specified services businesses. What is a specified services trade or business?

Correct Answer : A specified service trade or business includes those involving: The performance of services in certain fields, including health, law, accounting, actuarial science, performing arts, consulting, athletics, financial services, and brokerage services; Services consisting of investing and investment management, trading or dealing in securities, partnership interests, or commodities; and Any trade or business in which its principal asset is the reputation of one or more of its employees or owners. Architects and engineers are specifically excluded from this definition.

66 : Describe the limitations on the qualified business income deduction that apply to high income taxpayers.

Correct Answer : The basic application of § 199A becomes considerably more complex once a

taxpayer reaches certain taxable income thresholds. These taxable income thresholds – determined without regard to the QBI deduction – are \$321,400 for married taxpayers filing jointly and \$160,700 for all other taxpayers in 2019. These amounts will be indexed for inflation annually. Once these thresholds are reached, § 199A imposes two independent limitations: 1. First, § 199A imposes a cap on the QBI deduction that is determined by reference to a percentage of the W-2 wages paid by the business (i.e., wages paid to its employees) or by references to a smaller percentage of W-2 wages paid and a percentage of the cost of its depreciable property used to produce QBI. 2. Second, the QBI deduction generally is not available for income earned from certain specified service businesses.??

67 : How does property used in a qualified trade or business factor into the QBI deduction calculation? What types of property are considered for the QBI deduction?

Correct Answer : Qualified property is used to determine one of the limitations to the QBI deduction. Specifically, 2.5 percent of qualified property is added to 25 percent of W-2 wages to determine this limitation. Qualified property includes depreciable tangible property – real or personal – that is used by the QTB during the year and whose “depreciable period” has not ended before the end of the taxable year. As a result, land and intangible assets are not qualified property. Given the broad-based changes to MACRS – allowing taxpayers to expense (via § 179 and/or bonus depreciation) property other than real estate – the depreciable period for qualified property under § 199A is a minimum of 10 years.
