ANSWER: a

88. A company had the following balance sheet amounts at the beginning of the year:

Total assets	\$650,000
Total stockholder's equity	250,000

During the year, total assets increased by \$350,000, total liabilities increased by \$100,000, and dividends were paid in the amount of \$300,000. No other transactions occurred except revenues and expenses. How much is net income for the year?

- a. \$750,000
- b. \$650,000
- c. \$500,000
- d. \$550,000

ANSWER: d

89. If a company has assets of \$5,000,000, liabilities of \$3,000,000, and retained earnings of \$1,200,000, how much is total stockholders' equity?

- a. \$800,000

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

- b. \$2,000,000
- c. \$3,800,000
- d. \$1,800,000

ANSWER: b

90. Benchmark Surveyors

The following balances are provided:

Cash	\$234,000	Accounts Payable	\$97,000
Inventory	121,000	Notes Payable, long-term	211,000
Land	453,000	Accounts Receivable	46,000

Calculate Current Assets.

- a. \$498,000
- b. \$401,000
- c. \$854,000
- d. \$709,000

ANSWER: b

91. Benchmark Surveyors

The following balances are provided:

Cash	\$234,000	Accounts Payable	\$97,000
Inventory	121,000	Notes Payable, long-term	211,000
Land	453,000	Accounts Receivable	46,000

Calculate Current Liabilities.

- a. \$97,000
- b. \$211,000
- c. \$354,000
- d. \$143,000

ANSWER: a

92. Which one of the following items is reported as part of stockholders' equity on a classified balance sheet?

- a. Unearned Revenue
- b. Accounts Payable
- c. Land
- d. Common Stock

ANSWER: d

93. Barnes Restaurant reports the following amounts:

Cash	\$125,000	Inventory	\$215,000
Land	275,000	Unearned Revenue	117,000
Equipment	350,000	Common Stock	300,000

Calculate Current Assets.

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

- a. \$457,000
- b. \$615,000
- c. \$125,000
- d. \$340,000

ANSWER: d

94. Which of the following accounts are normally reported as current liabilities on a classified balance sheet?

- a. Accounts Payable and Prepaid Insurance
- b. Interest Payable and Interest Receivable
- c. Income Taxes Payable and Salaries Payable
- d. Common Stock and Accounts Payable

ANSWER: c

95. Which one of the following is **not** a major category of long-term assets?

- a. intangible and other noncurrent assets
- b. property, plant, and equipment
- c. inventory
- d. long-term investments

ANSWER: c

96. Which of the following would **not** be considered an intangible asset?

- a. franchises
- b. copyrights
- c. investments
- d. trademarks

ANSWER: c

97. If assets are expected to be realized in cash, sold, or consumed within the normal operating cycle of a business or within 1 year (if the operating cycle is shorter than 1 year), how are they reported on a classified balance sheet?

- a. property, plant, and equipment
- b. current assets

- d. current liabilities

ANSWER: b

98. Which set of items below are current assets?

- a. Accounts Receivable, Net Income, Inventory, and Dividends
- b. Cash, Accounts Receivable, Common Stock, and Sales
- c. Net Income, Cash, Office Supplies, and Inventory
- d. Cash, Accounts Receivable, Inventory, and Office Supplies

ANSWER: d

99. A nonclassified balance sheet typically does **not** have a distinction between which of the following items?

- a. assets and liabilities

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

- b. current and noncurrent items
- c. liabilities and stockholders' equity
- d. resources invested by the owners and amounts borrowed from creditors

ANSWER: b

100. For the most recent year, a company's current ratio was significantly lower than its industry average. What is the **best** possible explanation for this situation?

- a. The company's competitors were profitable.
- b. The company's liquidity has improved compared to previous years.
- c. The company has less equity than the rest of the industry.
- d. The company's liquidity is worse than the rest of the industry.

ANSWER: d

101. Bass Tours

The following balances were taken from the company's records:

Inventory	\$380,000	Accounts Receivable	\$190,000
Land	290,000	Accounts Payable	180,000
Cash	129,000	Unearned Revenue	110,000
Prepaid Rent	33,000	Common Stock	312,000
Retained Earnings	220,000	Long-term Notes Payable	200,000

Calculate the total current assets.

- a. \$842,000
- b. \$1,022,000
- c. \$732,000
- d. \$842,000

ANSWER: c

102. Bass Tours

The following balances were taken from the company's records:

Inventory	\$380,000	Accounts Receivable	\$190,000
Land	290,000	Accounts Payable	180,000
Cash	129,000	Unearned Revenue	110,000
Prepaid Rent	33,000	Common Stock	312,000
Retained Earnings	220,000	Long-term Notes Payable	200,000

Calculate the current ratio.

- a. 3.00 to 1
- b. 2.75 to 1
- c. 2.52 to 1
- d. 2.10 to 1

ANSWER: c

103. Bass Tours

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

The following balances were taken from the company's records:

Inventory	\$380,000	Accounts Receivable	\$190,000
Land	290,000	Accounts Payable	180,000
Cash	129,000	Unearned Revenue	110,000
Prepaid Rent	33,000	Common Stock	312,000
Retained Earnings	220,000	Long-term Notes Payable	200,000

If the average current ratio for similar companies is 2 to 1, what does this tell you about Bass's financial position?

- a. The company is more liquid than its competitors.
- b. The company has more long-term assets than its competitors.
- c. The company is bankrupt.
- d. The company is more profitable than its competitors.

ANSWER: a

104. If a company has current assets of \$2,100,000 and current liabilities of \$500,000, calculate its working capital.

- a. \$2,100,000
- b. \$2,600,000
- c. \$1,600,000
- d. \$500,000

ANSWER: c

105. Working capital is calculated by which of the following?

- a. Current assets divided by current liabilities
- b. Total assets minus total liabilities
- c. Current assets minus current liabilities
- d. Current assets plus current liabilities

ANSWER: c

106. A company has current assets of \$100,000, total assets of \$250,000, current liabilities of \$20,000, and long-term liabilities of \$50,000. How much of its existing cash can the company use to acquire equipment without allowing its current ratio to decline below 2 to 1?

- a. \$40,000
- b. \$150,000
- c. \$180,000
- d. \$60,000

ANSWER: d

107. A company has been witnessing an increase in its dollar amount of working capital over the past several years. Which one of the following measures should be used to further evaluate the company's short-run liquidity?

- a. The Asset Ratio
- b. An analysis of the company's long-term debt
- c. An analysis of the return on stockholders' equity
- d. The Current Ratio

ANSWER: d

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

108. Which financial statement reports information helpful in assessing working capital?

- a. the Balance Sheet
- b. the Income Statement
- c. the Retained Earnings Statement
- d. the Statement of Cash Flows

ANSWER: a

Building	400,000	Equipment	165,000
Inventories	105,000	Notes Payable (due in 5 years)	600,000

What is the company's current ratio?

- a. 0.48 to 1
- b. 2.00 to 1
- c. 2.55 to 1
- d. 2.86 to 1

ANSWER: b

110. If the current ratio is 2 to 1 and current assets equal \$200,000, how much is working capital?

- a. \$0
- b. \$100,000
- c. \$200,000
- d. \$300,000

ANSWER: b

111. For which of the following purposes is working capital and current ratio most useful?

- a. In evaluating a company's liquidity
- b. In evaluating a company's solvency
- c. In evaluating a company's profitability
- d. In evaluating a company's revenues

ANSWER: a

112. A question frequently asked by investors is "How much debt does this company have?" Which financial statement answers this question?

- a. the single step income statement
- b. the cash flow statement
- c. the multiple-step income statement
- d. the classified balance sheet

ANSWER: d

113. Resources that provide a benefit over a number of years and lack physical substance are classified as _____.

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

- a. property, plant, and equipment
- b. intangible assets
- c. long-term investments
- d. contributed capital

ANSWER: b

114. Liquidity

- a. measures the ability of the firm to pay financial obligations as they become due.
- b. can be measured in terms of working capital.
- c. can be assessed by the current ratio.
- d. All of these.

ANSWER: d

115. Which of the following would appear on an income statement?

- a. unearned revenue
- b. cost of sales
- c. retained earnings
- d. dividends

ANSWER: b

116. Beaver Tree Service

Beginning Retained Earnings	\$550,000
Ending Retained Earnings	700,000
Dividends Paid	100,000
Revenue	525,000

What is the company's net income?

- a. \$150,000
- b. \$250,000
- c. \$300,000
- d. \$350,000

ANSWER: b

117. Beaver Tree Service

Beginning Retained Earnings	\$550,000
Ending Retained Earnings	700,000
Dividends Paid	100,000
Revenue	525,000

The company's expenses are:

- a. \$100,000.
- b. \$150,000.
- c. \$450,000.

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

d. \$275,000.

ANSWER: d

118. If a company has revenues of \$10,500,000, declares and pays \$550,000 in dividends, and has net income of \$1,600,000, how much were expenses for the year?

- a. \$9,950,000
- b. \$1,050,000
- c. \$2,150,000
- d. \$8,900,000

ANSWER: d

119. Bay Camera

The company reported the following items on its financial statements for the current year ended December 31:

Sales	\$780,000	Cost of Sales	\$700,000
Selling, general & administrative expense	20,000	Other Expense	15,000
Dividends	5,000	Income Tax Expense	12,500

What amount will be reported as *Retained Earnings* on the Balance Sheet at December 31, current year, assuming this is the first year of operations?

- a. \$22,500
- b. \$27,500
- c. \$42,500
- d. Not enough information is provided.

ANSWER: b

120. Bay Camera

The company reported the following items on its financial statements for the year ended December 31:

Sales	\$780,000	Cost of Sales	\$700,000
Selling, general, and administrative expenses	20,000	Other Expense	15,000
Dividends	5,000	Income Tax Expense	12,500

What is the company's *Net Income* for the current year?

- a. \$22,500
- b. \$32,500
- c. \$42,500
- d. \$80,000

ANSWER: b

121. Suppose a company reports the following information at December 31:

Sales	\$15,000,000
Cash	\$ 3,000,000
Unearned Revenue	\$ 400,000

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Dividends	\$ 1,000,000
Cost of Sales	\$ 8,500,000

What is the company's Gross Profit?

- a. \$6,100,000
- b. \$5,500,000
- c. \$6,500,000
- d. \$12,000,000

ANSWER: c

122. Which of the following best describes the term "expenses"?

- a. The cost of assets used in the investing activities of a business
- b. The amount of interest or claim that the owners have in a business
- c. The future economic resources of a business entity
- d. The cost of resources used to earn revenues of a business

ANSWER: d

123. Which financial statement would you analyze to assess a firm's operating performance for the past year?

- a. the Balance Sheet
- b. the Retained Earnings Statement
- c. the Income Statement
- d. the Statement of Public Accounting

ANSWER: c

124. Which statement summarizes the results of the company's operations?

- a. the Statement of Cash Flows
- b. the Retained Earnings Statement
- c. the Balance Sheet
- d. the Income Statement

ANSWER: d

125. Calculate total sales for a company that reported a net loss of \$1,500,000 and total expenses of \$2,900,000.

- a. \$4,400,000
- b. \$1,400,000
- c. \$2,400,000
- d. \$1,600,000

ANSWER: b

126. The Income Statement shows

- a. how much profit the company has earned since it began operations.
- b. net income equal to the amount of cash on the Balance Sheet.
- c. a summary of the results of operations for a period of time.
- d. the liquidity of the company on an annual basis.

ANSWER: c

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

127. Which of the following items would not be reported on a multiple-step income statement after income from operations?

- a. income taxes
- b. interest income
- c. selling expenses
- d. interest expense

ANSWER: c

128. The cost of resources used to earn revenues during a period is called

- a. net income.
- b. expenses.
- c. revenues.
- d. dividends.

ANSWER: b

129. On a multiple-step income statement, income from operations results from subtracting total operating expenses from which of the following amounts?

- a. gross margin
- b. cost of goods sold
- c. income before taxes
- d. net sales

ANSWER: a

130. "Revenues" are best described as

- a. decreases in net assets resulting from the sale of goods or services.
- b. increases in net assets resulting from the sale of products or services.
- c. assets used or consumed in the sale of products or services.
- d. an increase in the financing activities.

ANSWER: b

131. Net profit margin is calculated as _____.

- a. net income divided by sales revenue
- b. sales revenue divided by net income
- c. net income divided by income from operations
- d. income from operations divided by net income

ANSWER: a

132. Which of the following is the correct date format for a financial statement heading?

- a. Balance Sheet for the Year Ended June 30
- b. Income Statement at December 31
- c. Income Statement for the Year Ended December 31
- d. Retained Earnings Statement at December 31

ANSWER: c

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

133. The list below contains several items that appear on a multiple-step income statement.

1. other income and expense
2. income before income taxes
3. net income
4. operating expenses
5. gross margin
6. net sales
7. income from operations

Select the choice that lists the items in the order they would appear on a multiple-step income statement.

- a. 6, 5, 4, 7, 1, 2, and 3
- b. 7, 6, 1, 4, 2, 3, and 5
- c. 6, 5, 4, 1, 7, 2, and 3
- d. 6, 7, 4, 1, 2, 3, and 5

ANSWER: a

134. Bellweather Times

The company reports the following balances:

Other Revenue	\$180,000	General and Administrative Expense	\$320,000
Dividends paid	\$220,000	Gross Margin	\$700,000
Selling Expenses	\$280,000	Income Tax Expense	\$60,000

What is the company's income from operations?

- a. \$280,000
- b. \$220,000
- c. \$100,000
- d. \$40,000

ANSWER: c

135. Bellweather Times

The company reports the following balances:

Other Revenue	\$180,000	General and Administrative Expense	\$320,000
Dividends paid	\$220,000	Gross Margin	\$700,000
Selling Expenses	\$280,000	Income Tax Expense	\$60,000

What is the company's Net Income?

- a. \$280,000
- b. \$220,000
- c. \$100,000
- d. \$40,000

ANSWER: b

136. Bellweather Times

The company reports the following balances:

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Other Revenue	\$180,000	General and Administrative Expense	\$320,000
Dividends paid	\$220,000	Gross Margin	\$700,000
Selling Expenses	\$280,000	Income Tax Expense	\$60,000

By what amount will net income on a single-step income statement differ from net income on a multiple-step income statement if the company prepares both formats?

- a. \$0
- b. \$2,000
- c. \$6,000
- d. \$8,000

ANSWER: a

137. Been There Used Furniture began operations on January 1, current year, with an initial investment of \$100,000 from each of its five stockholders. During the year, the company had net income of \$200,000 and paid dividends of \$50,000. If the company's revenues were \$500,000 for the year ended December 31, current year, how much were total expenses?

- a. \$300,000
- b. \$250,000
- c. \$350,000
- d. \$800,000

ANSWER: a

138. A company reported the following income statement amounts:

	<u>Current year</u>	<u>Prior year</u>
Service revenues	\$950,000	\$800,000
Operating expenses	\$700,000	\$550,000
Income taxes expense	\$100,000	\$100,000

Which of the following best describes the company's performance?

- a. The company's operating profit as a percentage of operating revenues decreased.
- b. The company has become more profitable.
- c. The increase in operating revenues increased the company's net income.
- d. The operating expenses as a percentage of operating revenues remained the same.

ANSWER: a

139. Which one of the following equations represents the Retained Earnings Statement activity?

- a. Beginning retained earnings + net income + dividends = ending retained earnings
- b. Beginning retained earnings + cash inflows – cash outflows = ending retained earnings
- c. Beginning retained earnings + dividends – net income = ending retained earnings
- d. Beginning retained earnings + net income – dividends = ending retained earnings

ANSWER: d

140. Been There Used Furniture began operations on January 1, current year, with an initial investment of \$100,000 from each of its five stockholders. During the year, the company had net income of \$200,000 and paid dividends of \$50,000.

Calculate the retained earnings balance at December 31, current year.

- a. \$150,000
- b. \$200,000

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

c. \$500,000

d. \$650,000

ANSWER: a

141. Barr Attorneys reported the following information for the year ended December 31, current year.

Revenue	\$14,000,000
Expenses	11,500,000
Dividends	1,000,000
Retained Earnings at December 31, current year	1,750,000

What was the retained earnings balance at December 31, prior year?

a. \$ 250,000

b. \$2,500,000

c. \$1,500,000

d. \$ 350,000

ANSWER: a

142. On January 1, a company's balance in retained earnings was \$275,000. During the year, the company earned net income of \$23,500 and paid \$11,200 in dividends. Calculate the retained earnings balance at December 31.

a. \$263,800

b. \$298,500

c. \$262,700

d. \$287,300

ANSWER: d

143. Which of the following terms best describes the distribution of the net income of a corporation to its owners?

a. retained earnings

b. dividends

c. liquidation of assets

d. monetary unit

ANSWER: b

144. B&B Painting reported the following information for the year ended December 31, current year.

Revenues	\$2,500,000
Expenses	2,000,000
Retained Earnings at December 31, prior year	100,000
Retained Earnings at December 31, current year	450,000

How much was paid out in dividends in the current year?

a. \$500,000

b. \$150,000

c. \$350,000

d. \$250,000

ANSWER: b

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

145. On January 1, a company's balance in retained earnings was \$10,000,000. At December 31, the balance in retained earnings was \$9,400,000. If the company earned net income of \$440,000 during the year, how much were dividends?

- a. \$1,040,000
- b. \$1,000,000
- c. \$ 600,000
- d. \$440,000

ANSWER: a

146. Beard Marine

The company reported the following information for the year ended December 31:

Net income	\$100,000
Dividends	6,000
Retained earnings at December 31, current year	120,000

What was the economic effect of the dividend payment?

- a. The dividend reduced net income for the current year.
- b. The dividend would have been added to net income if the company's accounting equation were in balance.
- c. The dividend reduced total retained earnings.
- d. The dividends reduced income from operations.

ANSWER: c

147. Beard Marine

The company reported the following information for the year ended December 31:

Net income	\$100,000
Dividends	6,000
Retained earnings at December 31, current year	120,000

What was the balance of Retained Earnings at January 1, current year?

- a. \$21,000
- b. \$26,000
- c. \$106,000
- d. \$214,000

ANSWER: b

148. Been There Used Furniture began operations on January 1, current year, with an initial investment of \$100,000 from each of its five stockholders. During the year, the company had net income of \$200,000 and paid dividends of \$50,000. The dividends for the year

- a. increase the amount of common stock reported by the company
- b. are part of the company's operating expense.
- c. are reported on the Retained Earnings Statement.
- d. are reported on the Income Statement.

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

ANSWER: c

149. Which one of the following is **not** one of the activities on the Statement of Cash Flows?

- a. operating activities
- b. investing activities
- c. retained activities
- d. financing activities

ANSWER: c

150. Which of the following best describes a company's operating activities?

- a. Operating activities are cash flows directly related to earning income.
- b. Operating activities are necessary to provide the money to start a business.
- c. Operating activities are needed to provide the valuable assets required to run a business.
- d. Operating activities represent the right to receive a benefit in the future.

ANSWER: a

151. Identify the category of the statement of cash flows that reports the cash flows related to obtaining capital for a company.

- a. operating activities
- b. investing activities
- c. financing activities
- d. noncurrent activities

ANSWER: c

152. Net Income appears on which financial statement(s)?

- a. The Balance Sheet only
- b. The Income Statement only
- c. Both the Balance Sheet and the Income Statement
- d. Both the Income Statement and the Retained Earnings Statement

ANSWER: d

153. The beginning balance of retained earnings was \$800,000 and the ending balance was \$500,000. The company paid dividends of \$50,000.

- A) Determine the amount of net income (loss) for the year.
- B) What information would one find on the income statement in addition to net income?

ANSWER: A) (250,000) loss
[\$500,000 Ending Retained Earnings – \$800,000 Beginning Retained Earnings =
(\$300,000)]
[((\$300,000) decrease + \$50,000 Dividends Paid = (\$250,000) loss]

- B) The Income Statement will show the sources of amounts earned (Revenues) as well as the amount and type of costs incurred by the company (Expenses) during the period.

154. **Backus Tractor Sales**

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

The accountant prepared the following list of account balances from the company's records for the year ended December 31.

Sales Revenue	\$1,650,000	Cash	\$300,000
Accounts Receivable	140,000	Selling Expenses	440,000
Equipment	420,000	Common Stock	170,000
Accounts Payable	120,000	Interest Income	30,000
Salaries & Wages Expense	400,000	Cost of Sales	510,000
Inventories	220,000	Prepaid Expenses	20,000
Income Taxes Payable	50,000	Income Taxes Expense	180,000
Notes Payable, due in 2 years	200,000	Retained Earnings	?

Determine the following amounts for Backus Tractor Sales:

- A) The balance of Retained Earnings at the end of the year
- B) The total stockholders' equity at the end of the year
- C) Name the two events that might cause stockholders' equity to increase.

ANSWER: A) \$560,000
 (\$1,100,000 Total Assets – \$370,000 Total Liabilities – \$170,000 Common Stock = \$560,000)

B) \$730,000
 (\$1,100,000 Total Assets – \$370,000 Total Liabilities = \$730,000)
 OR
 (\$170,000 Common Stock + \$560,000 Retained Earnings = \$730,000)

C) Stockholders' Equity can increase when common stock is issued to investors. It also can increase through increases in retained earnings. The later happens when the net income of the business is greater than any dividends paid to the shareholders.

155. Best Deal Auto Parts began the year with \$400,000 in assets, \$140,000 in liabilities, and \$160,000 of retained earnings. Net income for the year was \$100,000, and dividends of \$80,000 were paid.

- A) Prepare a Retained Earnings Statement for the year ended December 31.
- B) What is the nature or purpose of the Retained Earnings Statement?
- C) What was the amount of common stock at the beginning of the year?
- D) What events would cause the two stockholders' equity items to increase?
- E) How do you identify whether the company was profitable during the year by examining the Retained Earnings Statement?

ANSWER:

Best Deal Auto Parts Retained Earnings Statement For the Year Ended December 31		
Retained Earnings, January 1		\$160,000
Add: Net income		100,000

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Deduct: Dividends	<u>(80,000)</u>
Retained Earnings, December 31	<u>\$180,000</u>

- B) Retained earnings is the amount of income earned by the company less any dividends paid to the stockholders since the company began operations. The retained earnings statement summarizes and explains the changes in retained earnings during the accounting period.
- C) \$100,000
(\$400,000 Total Assets – \$140,000 Total Liabilities – \$160,000 Beginning Retained Earnings = \$100,000)
- D) One way that the company can increase stockholders' equity is by selling additional shares of stock to investors. Another way is by retaining some or all of the net income earned each year rather than paying it out in dividends. This accumulated income is the company's retained earnings.
- E) The Retained Earnings Statement shows that the company was profitable for the year as there is reported net income for the period. If the company were to experience an operating loss, then this would be shown as a deduction from the beginning balance of retained earnings.

156. Presented below are selected data from a balance sheet:

Current assets	\$250,000
Property, plant, & equipment	700,000
Other assets	? ? ?
Current liabilities	200,000
Total Long-term debt	500,000
Total Stockholders' equity	275,000

- A) Determine the amount of "Other assets."
(Hint: You must use the accounting equation concept to determine your answer.)
- B) How much of the company is financed by creditors? How much is financed by the owners?

ANSWER: A) \$25,000
(\$200,000 Current liabilities + \$500,000 Long-term debt + \$275,000 Stockholders' equity = \$975,000 Total Assets)
(\$975,000 Total Assets – \$250,000 Current assets – \$700,000 Property, plant, & equipment = \$25,000)

- B) Amount of financing by creditors: \$700,000
(\$200,000 Current liabilities + \$500,000 Long-term debt = \$700,000)
- Amount of financing by owners': \$275,000
(\$275,000 Stockholders' equity)

157. The following accounts were taken from a company's accounting records. Answer the questions that follow.

Total liabilities, end of the yr.	\$920,000	Total assets, end of the yr.	\$1,430,000
-----------------------------------	-----------	------------------------------	-------------

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Common stock, end of the yr.	160,000	Retained earnings, beginning of the yr.	150,000
Dividends for the period	200,000	Net income for the yr.	400,000

- A) How much is the balance of Retained Earnings at the end of the year?
- B) Show the company's accounting equation at the end of the year with the respective dollar amounts.
- C) If stockholders' equity increases during the year, does that mean that the company is profitable? Explain your answer.

ANSWER: A) \$350,000
 (\$150,000 Retained earnings, beginning of the year + \$400,000 Net income – \$200,000 Dividends for the period = \$350,000)
 OR
 (\$1,430,000 Total assets, end of the year – \$920,000 Total liabilities, end of the year – \$160,000 Common stock, end of the year = \$350,000)

B) \$1,430,000 Total assets, end of the year = \$920,000 Total liabilities, end of the year + \$510,000 Stockholders' Equity, end of the year
 (\$160,000 Common stock, end of the year + \$350,000 Retained earnings, end of the year)

C) This would depend upon what causes the stockholders' equity to increase. If the increase was due to an increase in retained earnings, then the company would have been profitable for the period. But if the increase was due to an increase in the amount of common stock issued, this would not be a measure of profitability.

158. A certain company started business on January 1 with assets of \$1,000,000 and stockholders' equity of \$565,000. By the end of the year, assets increased by \$100,000 and liabilities decreased by \$150,000. Other than net income or loss, the only change in stockholders' equity was due to dividends paid worth \$50,000.

- A) What was the amount of total stockholders' equity at the end of the year?
- B) What was the amount of net income or net loss for the year?

ANSWER: A)

	<u>Assets</u>		<u>Liabilities</u>	<u>Stockholders' Equity</u>
Beginning of the year	\$1,000,000		\$435,000	\$565,000
Change during the year	<u>+100,000</u>		<u>–150,000</u>	<u>+250,000</u>
End of the year	\$1,100,000	=	285,000	\$815,000

B)	Change in equity	\$ 250,000
	Add: Dividends	<u>50,000</u>
	Net Income	<u>\$ 300,000</u>

159. A certain company began the year with total assets of \$10,000,000 and total liabilities of \$6,200,000. No additional stock was issued during the year. Use the accounting equation to answer the following questions:

- A) What was the amount of Total Assets at the end of the year if Liabilities decreased by \$600,000 and Stockholders' Equity increased by \$900,000?
- B) Was the company profitable? Explain your answer.

ANSWER: A) \$10,300,000

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

	<u>Assets</u>	<u>Liabilities</u>	<u>Stockholders' Equity</u>
Beginning of the year	\$10,000,000	\$6,200,000	\$3,800,000
Change during the year	<u>300,000</u>	<u>(600,000)</u>	<u>900,000</u>
End of the year	\$10,300,000	\$5,600,000	\$4,700,000

B)

Yes, the company was profitable because the Stockholders' Equity increased from the beginning of the year to the end of the year despite no additional stock being issued during the year.

160. The following balance sheet information is provided:

	<u>Assets</u>	<u>Liabilities</u>	<u>Stockholder's Equity</u>
January 1, current year	\$1,500,000	\$540,000	\$ _____
December 31, current year	1,810,000	_____	1,400,000

- A) What is the amount of Stockholders' Equity at January 1, current year?
- B) What is the amount of Liabilities at December 31, current year?
- C) Assume that the company paid dividends of \$620,000 during the year. How much net income did it earn during the year?
- D) Assume that the company paid no dividends during the year. Without looking at the income statement, how can you tell if the company is profitable or not?

- ANSWER: A) \$960,000
(\$1,500,000 Assets – \$540,000 Liabilities = \$960,000)
- B) \$410,000
(\$1,810,000 Assets – \$1,400,000 Stockholders' Equity = \$410,000 Liabilities)
- C) \$1,060,000
(\$960,000 Beginning Stockholders' Equity + X – \$620,000 Dividend = \$1,400,000 Ending Stockholders' Equity)

(X = \$1,060,000)
- D) Assuming that the increase in Stockholders' Equity would come from net income, the company would have to be considered profitable. Net income will increase Retained Earnings which is part of Stockholders' Equity.

161. Backus Tractor Sales

The accountant prepared the following list of account balances from the company's records for the year ended December 31.

Sales Revenue	\$1,650,000	Cash	\$300,000
Accounts Receivable	140,000	Selling Expenses	440,000
Equipment	420,000	Common Stock	170,000
Accounts Payable	120,000	Interest Income	30,000

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Salaries & Wages Expense	400,000	Cost of Sales	510,000
Inventories	220,000	Prepaid Expenses	20,000
Income Taxes Payable	50,000	Income Taxes Expense	180,000
Notes Payable, due in 2 years	200,000	Retained Earnings	?

Determine the following amounts for Backus Tractor Sales.

- A) Current Assets at the end of the year
Total Assets at the end of the year
- B) Total Liabilities at the end of the year
- C) What parties have a claim on the company's assets? Explain your answer in terms of the accounting equation.

ANSWER: A) Current Assets = \$680,000
(\$300,000 Cash + \$140,000 Accounts Receivable + \$220,000 Inventories + \$20,000 Prepaid Expenses = \$680,000)

Total Assets = \$1,100,000
(\$300,000 Cash + \$140,000 Accounts Receivable + \$220,000 Inventories + \$20,000 Prepaid Expenses + \$420,000 Equipment)

- B) Total Liabilities = \$370,000
(\$120,000 Accounts Payable + \$50,000 Income Taxes Payable + \$200,000 Notes Payable = \$370,000)

- C) Both the creditors and the owners have a claim on the assets of the corporation. The creditors have their claim arising from the liabilities of the corporation, while the owners have a claim through the stockholders' equity.

162. Backus Tractor Sales

The accountant prepared the following list of account balances from the company's records for the year ended December 31.

Sales Revenue	\$1,650,000	Cash	\$300,000
Accounts Receivable	140,000	Selling Expenses	440,000
Equipment	420,000	Common Stock	170,000
Accounts Payable	120,000	Interest Income	30,000
Salaries & Wages Expense	400,000	Cost of Sales	510,000
Inventories	220,000	Prepaid Expenses	20,000
Income Taxes Payable	50,000	Income Taxes Expense	180,000
Notes Payable, due in 2 years	200,000	Retained Earnings	?

Prepare a Balance Sheet for Backus Tractor Sales in good form.

ANSWER:

Backus Tractor Sales
Balance Sheet
December 31

<u>Assets</u>		<u>Liabilities & Stockholders' Equity</u>	
Cash	\$ 300,000	Accounts payable	\$ 120,000
Accounts receivable	140,000	Income taxes payable	50,000

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Inventories	220,000	Notes payable	200,000
Prepaid expenses	20,000	Common stock	170,000
Equipment	420,000	Retained Earnings	560,000
Total Assets	<u>\$1,100,000</u>	Total Liabilities & Stockholders' Equity	<u>\$1,100,000</u>

163. Ben & Terry's Ice Cream

The accountant prepared the following list from the company's accounting records for the year ended December 31:

Retained Earnings	?	Prepaid Expenses	\$50,000
Cash	\$77,000	Common Stock	400,000
Accounts Payable	50,000	Accounts Receivable	170,000
Sales Revenue	955,000	Interest Income	50,000
Cost of Sales	700,000	Salary Expense	140,000
Land	750,000	Income Tax Expense	20,000
Notes Payable	450,000	Selling Expense	45,000
Inventory	200,000	Salaries Payable	40,000

Determine the following amounts for Ben & Terry's Ice Cream.

A) Total Assets at the end of the year.

B) Total Liabilities at the end of the year.

C) Total Equity at the end of the year.

ANSWER: A) \$1,247,000
 (\$77,000 Cash + \$170,000 Accounts Receivable + \$200,000 Inventories + \$50,000 Prepaid Expense + \$750,000 Land = \$1,247,000)

B) \$540,000
 (\$50,000 Accounts Payable + \$450,000 Notes Payable + \$40,000 Salaries Payable = \$540,000)

C) \$707,000
 (\$1,247,000 Total Assets – \$540,000 Total Liabilities = \$707,000)

164. Ben & Terry's Ice Cream

The accountant prepared the following list from the company's accounting records for the year ended December 31:

Retained Earnings	?	Prepaid Expenses	\$50,000
Cash	\$77,000	Common Stock	400,000
Accounts Payable	50,000	Accounts Receivable	170,000
Sales Revenue	955,000	Interest Income	50,000
Cost of Sales	700,000	Salary Expense	140,000
Land	750,000	Income Tax Expense	20,000
Notes Payable	450,000	Selling Expense	45,000
Inventory	200,000	Salaries Payable	40,000

Using good form, prepare a Balance Sheet for Ben & Terry's Ice Cream.

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

ANSWER:

**Ben & Terry's Ice Cream
Balance Sheet
As of December 31**

<u>Assets</u>		<u>Liabilities & Owners' Equity</u>	
Cash	\$ 77,000	Accounts Payable	\$ 50,000
Accounts Receivable	170,000	Salaries Payable	40,000
Inventory	200,000	Notes Payable	450,000
Prepaid Expenses	50,000	Common Stock	400,000
Land	750,000	Retained Earnings	307,000
Total Assets	<u>\$1,247,000</u>	Total Liabilities & Owners' Equity	<u>\$1,247,000</u>

165. Dunn, Inc., started the year with total assets of \$1,400,000 and total liabilities of \$240,000. Net income for the year is \$1,000,000 and dividends declared and paid during the year are \$450,000.

- A) What is the amount of Dunn's Total Stockholders' Equity at the end of the year?
- B) Could Dunn have paid additional dividends during the year? Explain your answer.

ANSWER: A) \$1,710,000
 (\$1,400,000 Total Assets at the beginning of the year – \$240,000 Total Liabilities at beginning of the year = \$1,160,000 Total Stockholders' Equity at the beginning of the year)
 (\$1,160,000 Total Stockholders' Equity at the beginning of the year + \$1,000,000 Net Income for the year – \$450,000 Dividends = \$1,710,000)

- B) Yes. Assuming the company has enough cash to do so, additional dividends can be paid. Net income exceeded the amount of dividends paid by \$550,000 (\$1,000,000 – \$450,000), so the amount paid could have been increased. Also, the company has total positive retained earnings.

166. Classify the following items according to the financial statements on which each belongs, either the income statement (IS), the Retained Earnings Statement (RE), or the balance sheet (BS). Also, indicate whether each is a revenue (R), an expense (E), an asset (A), a liability (L), or a stockholders' equity (SE) item.

	<u>Appears on Which Statements?</u>	<u>Type of Account</u>
1. Retained earnings, end of the year	_____	_____
2. Equipment	_____	_____
3. Common stock	_____	_____
4. Unearned revenue	_____	_____
5. Sales	_____	_____
6. Rent expense	_____	_____
7. Inventories	_____	_____

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

ANSWER: 1.	Retained earnings, end of the year	BS, RE	SE
2.	Equipment	BS	A
3.	Common stock	BS	SE
4.	Unearned revenue	BS	L
5.	Sales	IS	R
6.	Rent expense	IS	E
7.	Inventories	BS	A

167. The following amounts were taken from the accounting records at December 31, current year:

Accounts Payable	\$400,000	Dividends Paid	\$100,000
Cash	\$100,000	Expenses	\$600,000
Inventories	\$700,000	Revenue	\$750,000

- A) Calculate Total Assets.
- B) Calculate Net Income for the year.
- C) Calculate Total Stockholders' Equity at the end of the year.
- D) Calculate Total Stockholders' Equity at the beginning of the year assuming there were no stock transactions during the year.

ANSWER: A) \$800,000
 (\$100,000 Cash + \$700,000 Inventories = \$800,000)

B) \$150,000
 (\$750,000 Revenue – \$600,000 Expenses = \$150,000)

C) \$400,000
 (\$800,000 Total Assets – \$400,000 Accounts Payable = \$400,000)

D) \$350,000
 (\$400,000 End of year - \$150,000 (NI = \$750,000 - \$600,000) + \$100,000 (Dividends))

168. The following information is taken from the Balance Sheet at December 31:

Cash	\$288,000	Retained Earnings	\$168,000
Inventory	96,000	Accounts Payable	84,000
Equipment	456,000	Bonds Payable	276,000
Common Stock	312,000		

- A) How much did creditors provide to this company?
- B) Which financial statement would an investor look to see if any stock was issued during the year?

ANSWER: A) \$360,000
 (\$84,000 Accounts Payable + \$276,000 Bond Payable)

B) While the Balance Sheet may show an amount for "Common Stock," this amount is an ending balance and would not show the results of any transactions involving new

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

issuances of stock during the period. Comparing the current year balance sheet with the prior year balance sheet would give this information in the form of the difference between the contributed capital. Also, the Statement of cash flows for the current year would show this information under the category cash flows from financing activities.

169. Balloon-E-Tunes

Retained Earnings	\$370,000	Notes Payable (due in 6 years)	\$120,000
Accumulated Depreciation	130,000	Salaries Payable	10,000
Income Taxes Payable	240,000	Supplies	20,000
Plant	480,000	Accounts Payable	360,000
Cash	110,000	Inventory	330,000
Accounts Receivable	350,000	Land	500,000
Common Stock	600,000	Prepaid Insurance	40,000

Prepare the current assets section of the Balance Sheet. You may omit the heading. How does the concept of liquidity apply?

ANSWER:

Cash	\$110,000
Accounts Receivable	350,000
Inventory	330,000
Prepaid Insurance	40,000
Supplies	<u>20,000</u>
Total Current Assets	<u>\$850,000</u>

Liquidity is an indicator of how close to cash the company's assets are. Those assets that are most liquid are listed first. Liquidity relates to the company's ability to pay its obligations as they become due. Current assets are expected to be converted into cash within 1 year or one operating cycle, whichever is longer, so they are a key determinant of liquidity.

170. Balloon-E-Tunes

Retained Earnings	\$370,000	Notes Payable (due in 6 years)	\$120,000
Accumulated Depreciation	130,000	Salaries Payable	10,000
Income Taxes Payable	240,000	Supplies	20,000
Plant	480,000	Accounts Payable	360,000
Cash	110,000	Inventory	330,000
Accounts Receivable	350,000	Land	500,000
Common Stock	600,000	Prepaid Insurance	40,000

Prepare the current liabilities section of the balance sheet. You may omit the heading. If the amount of current liabilities were larger, what effect would this have on the current ratio?

ANSWER:

Accounts Payable	\$360,000
Salaries Payable	10,000
Income Taxes Payable	<u>240,000</u>
Total	<u>\$610,000</u>

When current liabilities increase, the denominator of the current ratio increases. This causes the current ratio itself to decrease.

171. Balloon-E-Tunes

Retained Earnings	\$370,000	Notes Payable (due in 6 years)	\$120,000
-------------------	-----------	--------------------------------	-----------

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Accumulated Depreciation	130,000	Salaries Payable	10,000
Income Taxes Payable	240,000	Supplies	20,000
Plant	480,000	Accounts Payable	360,000
Cash	110,000	Inventory	330,000
Accounts Receivable	350,000	Land	500,000
Common Stock	600,000	Prepaid Insurance	40,000

Prepare the long-term assets section of the balance sheet. You may omit the heading. Why are these amounts classified as "long-term"?

ANSWER:

Land		\$500,000
Plant	\$480,000	
Less: Accumulated Depreciation	(130,000)	<u>350,000</u>
Total		<u>\$850,000</u>

Long-term assets are those that are expected to benefit the company beyond the current accounting period. Both the land and the buildings are expected to provide a benefit for more than one accounting period. Accumulated depreciation is the portion of the cost of the plant that has been expensed in the accounting periods to date.

172. Balloon-E-Tunes

Retained Earnings	\$370,000	Notes Payable (due in 6 years)	\$120,000
Accumulated Depreciation	130,000	Salaries Payable	10,000
Income Taxes Payable	240,000	Supplies	20,000
Plant	480,000	Accounts Payable	360,000
Cash	110,000	Inventory	330,000
Accounts Receivable	350,000	Land	500,000
Common Stock	600,000	Prepaid Insurance	40,000

Calculate the current ratio. What does this ratio tell you about the composition of the current assets?

ANSWER: Current Assets = \$850,000

(\$110,000 Cash + \$350,000 Accounts receivable + \$330,000 Inventory + \$40,000 Prepaid Insurance + \$20,000 Supplies = \$850,000)

Current Liabilities = \$610,000

(\$360,000 Accounts Payable + \$10,000 Salaries Payable + \$240,000 Income Taxes Payable = \$610,000)

Current ratio = 1.39 to 1

(\$850,000 / \$610,000)

The current ratio does not provide information about the composition of the company's current assets and current liabilities. Only total current assets are used to calculate the current ratio.

173. Balloon-E-Tunes

Retained Earnings	\$370,000	Notes Payable (due in 6 years)	\$120,000
Accumulated Depreciation	130,000	Salaries Payable	10,000
Income Taxes Payable	240,000	Supplies	20,000
Plant	480,000	Accounts Payable	360,000
Cash	110,000	Inventory	330,000
Accounts Receivable	350,000	Land	500,000

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Common Stock 600,000 Prepaid Insurance 40,000

Calculate the amount of working capital. What can you learn from the current ratio that you cannot learn from the amount of working capital?

ANSWER: Current Assets = \$850,000

(\$110,000 Cash + \$350,000 Accounts receivable + \$330,000 Inventory + \$40,000 Prepaid Insurance + \$20,000 Supplies = \$850,000)

Current Liabilities = \$610,000

(\$360,000 Accounts Payable + \$10,000 Salaries Payable + \$240,000 Income Taxes Payable = \$610,000)

Working Capital = \$240,000

(\$850,000 – \$610,000)

Working capital and the current ratio are both measures of liquidity. Working capital is a dollar amount and the information it can convey is limited. The current ratio is based on a relative relationship and hence allows comparisons to be made between different companies.

174. B-There Transportation calculated the following amounts concerning its financial information for the year ending December 31, current year and prior year.

	<u>Current year</u>	<u>Prior year</u>
Current Ratio	4.0 to 1	2.0 to 1

What does this change in the current ratio indicate? Explain.

ANSWER: The current ratio increased from 2.0 to 1 to 4.0 to 1. This is an unusually large increase for most companies. A larger current ratio means a company is more liquid. Its current assets as a percentage of its current liabilities have increased.

175. B-There Transportation calculated the following amounts concerning its financial information for the year ending December 31, current year and prior year.

	<u>Current year</u>	<u>Prior year</u>
Current Ratio	4.0 to 1	2.0 to 1

Suppose the company had a decrease in its cash account from prior year to current year. Would the other current assets amounts have increased or decreased? Explain.

ANSWER: Since the current ratio increased from prior year to current year, the current assets other than cash would have had to increase substantially to offset the decline in cash. However, cash could also have been used to pay down current liabilities but then current ratio would not be impacted substantially.

176. After reporting a profit of \$20,000 for the year, a certain company reported the following items on its balance sheet:

Cash	\$225,000
Accounts receivable	110,000
Inventory	80,000
Prepaid insurance	5,000
Land	100,000
Building	280,000
Accounts payable	60,000
Salaries payable	10,000
Common stock	500,000
Retained earnings	230,000

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

- A) Calculate the current ratio and determine the amount of working capital.
- B) Beyond the information provided in your answers to "A," what does the composition of the current assets tell you about the company's liquidity?
- C) Which other financial statement would help to fully access liquidity?

ANSWER: A) Current ratio: 6 to 1
 $(\$225,000 \text{ Cash} + \$110,000 \text{ Accounts receivable} + \$80,000 \text{ Inventory} + \$5,000 \text{ Prepaid insurance}) / (\$60,000 \text{ Accounts payable} + \$10,000 \text{ Salaries payable}) = 6 \text{ to } 1$

Working capital: \$350,000
 $(\$420,000 \text{ Total Current Assets} - \$70,000 \text{ Total Current Liabilities}) = \$350,000$

- B) The closer an asset is to being converted to cash, the more liquid the asset is. Some assets, like inventory, take much longer to turn into cash because they must be sold before collection of the cash can be made. Prepaid insurance is not as liquid as accounts receivable since it will be consumed as time passes. Receivables are more liquid than inventory because a sale has already occurred

- C) The statement of cash flows would be helpful to determine the cash inflows and outflows that occurred during the year. The balance sheet represents only the ending balance of the cash account. The statement of cash flows also identifies the sources and uses of cash by accounting activity.

177. The following amounts were taken from the accounting records at December 31, current year:

Service Revenue	\$600,000	Salaries Expense	\$200,000
Dividends Paid	50,000	Rent Expense	86,000
Buildings	110,000	Land	100,000
Accounts Payable	40,000	Accounts Receivable	28,000
Common Stock	60,000	Retained Earnings, Jan. 1, current year	400,000
Utilities Expense	19,000	Notes Payable	30,000
Income Tax Payable	4,000	Income Tax Expense	110,000

- A) Calculate net income for the year.
- B) Calculate retained earnings at the end of the year.

ANSWER: A) \$185,000
 $(\$600,000 \text{ Service Revenue} - \$200,000 \text{ Salaries Expense} - \$86,000 \text{ Rent Expense} - \$19,000 \text{ Utilities Expense} - \$110,000 \text{ Income Tax Expense}) = \$185,000$

- B) \$535,000
 $(\$400,000 \text{ Retained Earnings, Jan. 1, current year} + \$185,000 \text{ Net Income} - \$50,000 \text{ Dividends Paid}) = \$535,000$

178. Presented below are selected data from the accounting records for the year:

Sales	\$900,000
Income tax expense	80,000
Cost of Sales	550,000
Operating expenses	150,000

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Dividends 75,000

- A) Calculate the net income or loss for the year.
- B) Did the company's financial position improve or deteriorate during the year? Explain.
- C) Is the company profitable? Explain.

ANSWER: A) Net income: \$120,000
 (\$900,000 Sales – \$550,000 Cost of sales – \$150,000 Operating expenses – \$80,000
 Income tax expense = \$120,000)

B) The financial position improved since the net income increases the company's retained earnings.

C) Yes. The amount of revenues exceeds the amount of expenses by \$120,000.

179. Backus Tractor Sales

The accountant prepared the following list of account balances from the company's records for the year ended December 31.

Sales Revenue	\$1,650,000	Cash	\$300,000
Accounts Receivable	140,000	Selling Expenses	440,000
Equipment	420,000	Common Stock	170,000
Accounts Payable	120,000	Interest Income	30,000
Salaries & Wages Expense	400,000	Cost of Sales	510,000
Inventories	220,000	Prepaid Expenses	20,000
Income Taxes Payable	50,000	Income Taxes Expense	180,000
Notes Payable, due in 2 years	200,000	Retained Earnings	?

Determine the following amounts for Backus Tractor Sales:

- A) The total revenues for the year.
- B) The total expenses for the year.
- C) What is the purpose of the Income Statement?
- D) Is this company profitable? Explain your answer.
- E) Is this the first year of operations for this company? Explain your answer.

ANSWER: A) \$1,680,000
 (\$1,650,000 Sales Revenue + \$30,000 Interest Income = \$1,680,000)

B) \$1,530,000
 (\$510,000 Cost of Sales + \$400,000 Salaries & Wages Expense + \$440,000 Selling
 Expenses + \$180,000 Income Taxes Expense = \$1,530,000)

C) The purpose of the Income Statement is to provide information regarding the revenues and expenses of the company. The difference between the two shows the profitability of the company for a particular period of time.

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

- D) The company had net income of \$150,000 for the period. Since revenues exceeded expenses for the period, the company would be considered profitable.

- E) This would not be the first year of operations for this company. The reasons for this are that the ending Retained Earnings balance is greater than the net income of \$150,000. Since the ending balance of Retained Earnings is \$560,000 and Net Income for the period was \$150,000 as well as apparently no dividends were being paid to the stockholders during the year, the company began the year with a balance of \$410,000 (\$560,000 – \$150,000) in Retained Earnings.

180. The following amounts were taken from the income statement of Beauty World for the current year ending December 31:

	<u>Current year</u>
Net Sales	\$750,000
Selling, General, and Administrative Expense	450,000
Research and Development Expense	50,000
Other Income (net)	25,000

How much is net income for the current year ended December 31? Would the net income amount have been different if the company had used a single-step income statement rather than the multiple-step income statement? Explain.

ANSWER: Net Income = \$275,000

(\$750,000 Net Sales + \$25,000 Other Income, net – \$450,000 Selling, General, and Administrative Expenses – \$50,000 Research and Development Expense = \$275,000)

Net income is the same under a single-step or a multiple-step income statement. Only subtotals and the order the amounts are listed in differ.

181. Backus Tractor Sales

The accountant prepared the following list of account balances from the company's records for the year ended December 31.

Sales Revenue	\$1,650,000	Cash	\$300,000
Accounts Receivable	140,000	Selling Expenses	440,000
Equipment	420,000	Common Stock	170,000
Accounts Payable	120,000	Interest Income	30,000
Salaries & Wages Expense	400,000	Cost of Sales	510,000
Inventories	220,000	Prepaid Expenses	20,000
Income Taxes Payable	50,000	Income Taxes Expense	180,000
Notes Payable, due in 2 years	200,000	Retained Earnings	?

Prepare a single-step Income Statement for Backus Tractor Sales in good form.

ANSWER:

Backus Tractor Sales Income Statement For the Year Ended December 31			
Revenues:			
	Sales revenue	\$1,650,000	
	Interest income	<u>30,000</u>	\$1,680,000
Expenses:			
	Cost of sales	\$ 510,000	

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

	Salaries & wages expense	400,000	
	Selling expenses	440,000	
	Income taxes expense	<u>180,000</u>	<u>1,530,000</u>
Net income			<u>\$ 150,000</u>

182. Listed below are several amounts from the accounting records of Bike Links for the year ended December 31. Prepare a multiple-step income statement in good form.

Service revenue	\$960,000
Selling expense	176,000
Income taxes expense	160,000
General and administrative expenses	280,000
Interest revenue	8,000

ANSWER:

Bike Links Income Statement For the Year Ended December 31			
Service Revenue			\$960,000
Operating Expenses:			
	Selling Expenses	\$176,000	
	General and Administrative Expenses	<u>280,000</u>	
	Total Operating Expenses		<u>456,000</u>
Income from Operations			\$ 504,000
Other Revenue and Expenses			
	Interest Revenue		<u>8,000</u>
Income Before Taxes			\$ 512,000
Income Taxes Expense			<u>160,000</u>
Net Income			<u>\$ 352,000</u>

183. Ben & Terry's Ice Cream

The accountant prepared the following list from the company's accounting records for the year ended December 31:

Retained Earnings	Prepaid Expenses	\$50,000
Cash	Common Stock	400,000
Accounts Payable	Accounts Receivable	170,000
Sales Revenue	Interest Income	50,000
Cost of Sales	Salary Expense	140,000
Land	Income Tax Expense	20,000
Notes Payable	Selling Expense	45,000
Inventory	Salaries Payable	40,000

Determine the following amounts for Ben & Terry's Ice Cream:

- A) Total Revenues for the year.
- B) Total Expenses for the year.
- C) Net Income for the year.

ANSWER: A) \$1,005,000
 (\$955,000 Sales Revenue + \$50,000 Interest Income = \$1,005,000)

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

- B) \$905,000
 (\$700,000 Cost of Sales + \$140,000 Salary Expense + \$20,000 Income Tax Expense +
 \$45,000 Selling Expense = \$905,000)
- C) \$100,000
 (\$1,005,000 Total Revenue – \$905,000 Total Expenses = \$100,000)

184. Listed below are several amounts from the accounting records of Big Tom's Pawn Shops for the year ended December 31. Prepare a single-step income statement in good form.

Salaries expenses	\$145,000
Rent expense	12,000
Sales	225,000
Retained earnings	100,000
Insurance expense	11,000
Income taxes expense	30,000

ANSWER:

Big Tom's Pawn Shops Income Statement For the Year Ended December 31			
Revenues:			
	Sales		\$225,000
Expenses			
	Salaries expense	\$145,000	
	Rent expense	12,000	
	Insurance expense	11,000	
	Income taxes expense	<u>30,000</u>	
	Total Expenses		<u>198,000</u>
Net Income			<u>\$ 27,000</u>

185. Ben & Terry's Ice Cream

The accountant prepared the following list from the company's accounting records for the year ended December 31:

Retained Earnings	?Prepaid Expenses	\$50,000
Cash	\$77,000Common Stock	400,000
Accounts Payable	50,000Accounts Receivable	170,000
Sales Revenue	955,000Interest Income	50,000
Cost of Sales	700,000Salary Expense	140,000
Land	750,000Income Tax Expense	20,000
Notes Payable	450,000Selling Expense	45,000
Inventory	200,000Salaries Payable	40,000

Using good form, prepare a single-step income statement for Ben & Terry's Ice Cream.

ANSWER:

Ben & Terry's Ice Cream Income Statement For the Year Ended December 31			
Revenues:			
	Sales Revenue	\$955,000	
	Interest Income	<u>50,000</u>	\$1,005,000

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Expenses:

	Cost of Sales	\$700,000	
	Salaries Expense	140,000	
	Selling Expense	45,000	
	Income taxes Expense	<u>20,000</u>	<u>905,000</u>
Net Income			<u>\$ 100,000</u>

186. Blackbeard's Restaurant began operations on January 1, 2021, with a total investment of \$100,000 by its stockholders. The restaurant had a net loss in its first year of business of \$15,000. During 2022 and 2023, the business was profitable with net incomes of \$25,000 and \$50,000, respectively. The company paid \$5,000 per year in dividends to its shareholders in 2022 and 2023.

A) In good form, prepare a Retained Earnings Statement for the year ended December 31, 2022.

B) How much is total retained earnings on December 31, 2023?

C) Explain the link between the Retained Earnings Statement and the balance sheet.

ANSWER: A)

Blackbeard's Restaurant Retained Earnings Statement For the Year Ended December 31, 2022	
Beginning balance, January 1, 2022	\$(15,000)*
Add: Net income for 2022	25,000
Less: Dividends paid during the year	<u>(5,000)</u>
Ending balance, December 31, 2022	<u>\$ 5,000</u>

*\$-15,000 Net Loss for 2021 - \$0 Dividends paid = \$(15,000) Balance, January 1, 2022

B) Retained earnings at December 31, 2023 = \$50,000
 (\$5,000 Beginning Balance, January 1, 2023 + \$50,000 Net Income for 2023 - \$5,000 Dividends paid during the year = \$50,000)

C) The ending balance of the retained earnings statement represents the cumulative earnings less all the dividends declared and paid for the life of the business. This amount appears on the balance sheet as a component of stockholders' equity.

187. Assume that you have received copies of the financial statements for Best Buy for two consecutive years. Answer the following questions

A) If you were a banker, why would you need information from the company's financial statements?

B) If you were a potential investor in Best Buy stock, what information would you want from their financial statements?

C) If you were a labor negotiator for a union that represents a group of Best Buy employees, which financial statement would provide you with the most useful information?

ANSWER: A banker wants to be assured that the company will make its interest payments and repay the principle of the loan in a timely manner. A banker would also want to know about the value of the assets that could be used to secure the loan or liquidated if the company can't repay the loan.

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

- B) Investors want to know whether they should make an investment in the company's stock, or continue to hold their investment. They will be looking at the company's recent performance, whether the company has been profitable, how their profits compare with other companies, and how much the company has paid in dividends.
- C) A labor negotiator needs to know how much profit the company has made. This information is found on the Income Statement.

188. List three different groups of users of accounting information. Indicate the type of decisions each group typically makes from accounting information.

ANSWER: The groups and their decisions are:

Stockholders:	Is the company profitable enough to pay dividends? Did the company make a profit for the period?
Management:	How should an item be priced? Should we continue operations? Can we give employees raises?
Bankers:	Can the company pay interest and principal when it comes due?
Creditors:	Can the company pay bills when they are due?
Governmental agencies:	How much did the company earn? (i.e., how much taxes should be paid?)

189. Baker's Pride Bakery

Condensed data from the company's current year and prior year financial statements are presented below. The figures are expressed in thousands.

Statement A	Current year	Prior year
Assets:		
Total current assets	\$219,560	\$198,088
Property, plant, & equipment (net of accumulated depreciation)	18,320	13,996
Investments	3,370	1,167
Other assets	<u>12,220</u>	<u>11,667</u>
Total assets	<u>\$253,470</u>	<u>\$224,918</u>
Liabilities:		
Total current liabilities	\$ 92,990	\$ 95,260
Long-term debt	<u>15,160</u>	<u>22,172</u>
Total liabilities	\$108,150	\$117,432
Stockholders' equity:		
Contributed capital	\$ 53,680	\$ 35,475
Retained Earnings	<u>91,640</u>	<u>72,011</u>
Total stockholders' equity	<u>\$145,320</u>	<u>\$107,486</u>
Total liabilities & stockholders' equity	<u>\$253,470</u>	<u>\$224,918</u>

Statement B	Current year	Prior year
Net Sales	\$229,301	\$203,171
Cost of sales	<u>135,453</u>	<u>131,212</u>
Gross margin	\$ 93,848	\$ 71,959
Selling, general, and administrative expenses	64,832	57,442
Other income (expense)	<u>693</u>	<u>(130)</u>
Income (loss) before income taxes	\$ 29,709	\$ 14,387

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Income tax expense	<u>3,534</u>	<u>2,320</u>
Net income (loss)	<u>\$ 26,175</u>	<u>\$ 12,067</u>

Based on the information provided, is the company considered a business or non-business entity? How do you know by examining the financial statements?

ANSWER: All businesses engage in activities that can be categorized as financing, investing, or operating activities. The given balance sheet and the income statement show that Baker's Pride Bakery has taken part in all the aforementioned activities and thus is a business entity. It has raised capital from stockholders and creditors and also carried on operations which resulted in sales and net income.

190. Baker's Pride Bakery

Condensed data from the company's current year and prior year financial statements are presented below. The figures are expressed in thousands.

Statement A	Current year	Prior year
Assets:		
Total current assets	\$219,560	\$198,088
Property, plant, & equipment (net of accumulated depreciation)	18,320	13,996
Investments	3,370	1,167
Other assets	<u>12,220</u>	<u>11,667</u>
Total assets	<u>\$253,470</u>	<u>\$224,918</u>
Liabilities:		
Total current liabilities	\$ 92,990	\$ 95,260
Long-term debt	<u>15,160</u>	<u>22,172</u>
Total liabilities	\$108,150	\$117,432
Stockholders' equity:		
Contributed capital	\$ 53,680	\$ 35,475
Retained Earnings	<u>91,640</u>	<u>72,011</u>
Total stockholders' equity	<u>\$145,320</u>	<u>\$107,486</u>
Total liabilities & stockholders' equity	<u>\$253,470</u>	<u>\$224,918</u>

Statement B	Current year	Prior year
Net Sales	\$229,301	\$203,171
Cost of sales	<u>135,453</u>	<u>131,212</u>
Gross margin	\$ 93,848	\$ 71,959
Selling, general, and administrative expenses	64,832	57,442
Other income (expense)	<u>693</u>	<u>(130)</u>
Income (loss) before income taxes	\$ 29,709	\$ 14,387
Income tax expense	<u>3,534</u>	<u>2,320</u>
Net income (loss)	<u>\$ 26,175</u>	<u>\$ 12,067</u>

Based on the information provided, is the company legally organized as a sole proprietorship, partnership, or corporation? How can you tell?

ANSWER: The company is organized as a corporation as evidenced by the Stockholders' equity items.

191. Complete the following table to compare and contrast sole proprietorships and corporations.

Item	Proprietorship	Corporation
Ease of formation		
Ability to raise large sums of capital		

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Tax advantages		
Extent of owner liability		
Double taxation of profits		

ANSWER:

Item	Proprietorship	Corporation
Ease of formation	Easy	More difficult
Ability to raise large sums of capital	Limited	Easier
Tax advantages	Yes	No
Extent of owner liability	Unlimited	Limited
Double taxation of profits	No	Yes

192. List the four financial statements. Explain the connection between these four statements.

- ANSWER:
1. The Balance Sheet
 2. The Income Statement
 3. The Retained Earnings Statement
 4. The Statement of Cash Flows

Net income on the income statement increases retained earnings on the Retained Earnings Statement. The balance in the Retained Earnings Statement goes to the balance sheet. The ending balance for cash on the Statement of Cash Flows is also shown on the Balance Sheet. The statement of cash flows explains the change in cash during the year.

193. **Baker's Pride Bakery**

Condensed data from the company's current year and prior year financial statements are presented below. The figures are expressed in thousands.

Statement A	Current year	Prior year
Assets:		
Total current assets	\$219,560	\$198,088
Property, plant, & equipment (net of accumulated depreciation)	18,320	13,996
Investments	3,370	1,167
Other assets	<u>12,220</u>	<u>11,667</u>

Liabilities:		
Total current liabilities	\$ 92,990	\$ 95,260
Long-term debt	<u>15,160</u>	<u>22,172</u>
Total liabilities	\$108,150	\$117,432
Stockholders' equity:		
Contributed capital	\$ 53,680	\$ 35,475
Retained Earnings	<u>91,640</u>	<u>72,011</u>
Total stockholders' equity	<u>\$145,320</u>	<u>\$107,486</u>
Total liabilities & stockholders' equity	<u>\$253,470</u>	<u>\$224,918</u>

Statement B	Current year	Prior year
Net Sales	\$229,301	\$203,171
Cost of sales	<u>135,453</u>	<u>131,212</u>
Gross margin	\$ 93,848	\$ 71,959
Selling, general, and administrative expenses	64,832	57,442

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

Other income (expense)	<u>693</u>	<u>(130)</u>
Income (loss) before income taxes	\$ 29,709	\$ 14,387
Income tax expense	<u>3,534</u>	<u>2,320</u>
Net income (loss)	<u>\$ 26,175</u>	<u>\$ 12,067</u>

Which statement indicates the financial position of the company on a specific date? What information is provided on that statement that indicates the financial position of the company? Explain.

ANSWER: The classified balance sheet provides information about the financial position of the company. It is expressed in terms of the accounting equation. When total liabilities are subtracted from total assets, the difference is stockholders' equity.

194. Baker's Pride Bakery

Condensed data from the company's current year and prior year financial statements are presented below. The figures are expressed in thousands.

Statement A	Current year	Prior year
Assets:		
Total current assets	\$219,560	\$198,088
Property, plant, & equipment (net of accumulated depreciation)	18,320	13,996
Investments	3,370	1,167
Other assets	<u>12,220</u>	<u>11,667</u>
Total assets	<u>\$253,470</u>	<u>\$224,918</u>

Income (loss) before income taxes	\$ 29,709	\$ 14,387
Income tax expense	<u>3,534</u>	<u>2,320</u>
Net income (loss)	<u>\$ 26,175</u>	<u>\$ 12,067</u>

How much of the company is financed by the owners at the end of the current year?

ANSWER: The amount of financing by the owners for the current year is represented by the amount of stockholders' equity, \$145,320.

195. Baker's Pride Bakery

Condensed data from the company's current year and prior year financial statements are presented below. The figures are

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

expressed in thousands.

Statement A	Current year	Prior year
Assets:		
Total current assets	\$219,560	\$198,088
Property, plant, & equipment (net of accumulated depreciation)	18,320	13,996
Investments	3,370	1,167
Other assets	<u>12,220</u>	<u>11,667</u>
Total assets	<u>\$253,470</u>	<u>\$224,918</u>
Liabilities:		
Total current liabilities	\$ 92,990	\$ 95,260
Long-term debt	<u>15,160</u>	<u>22,172</u>
Total liabilities	\$108,150	\$117,432
Stockholders' equity:		
Contributed capital	\$ 53,680	\$ 35,475
Retained Earnings	<u>91,640</u>	<u>72,011</u>
Total stockholders' equity	<u>\$145,320</u>	<u>\$107,486</u>
Total liabilities & stockholders' equity	<u>\$253,470</u>	<u>\$224,918</u>

Statement B	Current year	Prior year
Net Sales	\$229,301	\$203,171
Cost of sales	<u>135,453</u>	<u>131,212</u>
Gross margin	\$ 93,848	\$ 71,959
Selling, general, and administrative expenses	64,832	57,442
Other income (expense)	<u>693</u>	<u>(130)</u>
Income (loss) before income taxes	\$ 29,709	\$ 14,387
Income tax expense	<u>3,534</u>	<u>2,320</u>
Net income (loss)	<u>\$ 26,175</u>	<u>\$ 12,067</u>

How much of the company is financed by creditors at the end of the current year?

ANSWER: The amount of financing provided by creditors for the current year is the amount of liabilities reported on the balance sheet, \$108,150. For the prior year, the amount was \$117,432. Total liabilities decreased by \$9,282, or 8.58%, from the prior year to the current year.

196. What financial statement items are investors and creditors most interested in and why?

ANSWER: Investors are most interested in cash receipts from dividends and the profitability trend of the company. Creditors are most interested in cash to be received for interest payments and the repayment of the principal. If a company does not have sufficient cash flows, investors and creditors could suffer as a result. The financial position, shown on the company's Balance Sheet, is also a concern for both investors and creditors because even though the company may have what appears to be sufficient cash flows for the current period, the long-term cash flow could be weak.

197. How is a classified balance sheet useful to decision makers?

ANSWER: The classification helps the users know how a company obtained its resources and whether a company will be able to pay its obligations when they become due. A classified balance sheet helps evaluate the liquidity of a company by separating the current assets from long-term assets and current liabilities from long-term liabilities. The user can then determine the amount of working capital and the current ratio, which are both useful measures of liquidity.

198. How are current liabilities closely related to current assets?

Name: _____ Class: _____ Date: _____

Ch. 01 Accounting and the Financial Statements

ANSWER: Current liabilities are obligations that will be satisfied within the operating cycle or within 1 year if the cycle is shorter than 1 year. These can be satisfied through the payment of cash or by providing goods or services. Current assets will be converted into cash, or sold, or consumed during the operating cycle or within 1 year if the cycle is shorter. For most companies, both current assets and liabilities are reported on the balance sheet using a 1-year time period.

199. Potential stockholders and lenders are interested in a company's financial statements. Several financial statement items appear below. Answer the questions that follow.

Accounts receivable	Accounts payable	Advertising expense
Cash	Depreciation expense	Income taxes
Common stock	Land held for future expansion	Dividends
Retained earnings	Loss on the sale of equipment	Service revenue
Office supplies	Patent amortization expense	Sales
Unearned revenue	Utilities expense	

A) List the two items from above in which stockholders would be most interested. Explain why the two you selected are important to stockholders.

B) In which one item would lenders be most interested? Explain why this item is important.

ANSWER: A) Stockholders are interested in net income and dividends. They want to make sure the company is profitable. If a company is incurring losses, it may not pay dividends.

B) Lenders are most interested in the company's ability to pay bills when they become due. Cash can be a big problem if a company does not have enough to pay its bills. This includes the company's ability to repay the lender.

200. You Decide Essay

A friend of yours is seeking advice on which stocks to buy. Right now, she is looking for a stock that pays cash dividends on a regular basis. She has obtained 6 years' worth of financial statements for the two stocks under consideration. Describe at least one item on each financial statement that she should study to determine which stock is more likely to pay future cash dividends.

ANSWER: The Income statement: Trend of profitable operations
 The Retained earnings statement: The payment of cash dividends in the past
 The Balance sheet: The existence of sufficient cash from which to pay dividends
 The Cash flow statement: Trend of positive cash flows from operations

201. Baker's Pride Bakery

Condensed data from the company's current year and prior year financial statements are presented below. The figures are expressed in thousands.

Statement A	Current year	Prior year
Assets:		
Total current assets	\$219,560	\$198,088
Property, plant, & equipment (net of accumulated depreciation)	18,320	13,996
Investments	3,370	1,167
Other assets	<u>12,220</u>	<u>11,667</u>
Total assets	<u>\$253,470</u>	<u>\$224,918</u>
Liabilities:		

Name: _____ Class: _____ Date: _____

Income tax expense	<u>3,534</u>	<u>2,320</u>
Net income (loss)	<u>\$ 26,175</u>	<u>\$ 12,067</u>

A) What is the name of Statement A?

B) What is the name of Statement B?

ANSWER: A) Statement A is the Classified Balance Sheet.

B) Statement B is the Multiple-Step Income Statement.

202. Each of the four statements that comprise a full set of financial statements has an underlying equation or formula. List the statements in the order they are prepared and the underlying equation of each.

ANSWER: 1. Income statement: Revenues - Expenses = Net income (net loss)
 2. Retained earnings statement: Beginning retained earnings + net income (net loss) - dividends = ending retained earnings
 3. Balance sheet: Assets = Liabilities + Stockholders' equity
 4. Statement of cash flows: Beginning cash +/- operating cash flows +/- investing cash flows +/- financing cash flows = ending cash

203. Baker's Pride Bakery

Was the company profitable in both the years? What are the amounts of the total revenues and total expenses, respectively, for current year? Which financial statement provides this information to you?

ANSWER: The company was profitable in both the years.

For the current year, total revenues include net sales of \$229,301 and other income \$693, for a total of \$229,994.

Total expenses for the current year include cost of sales of \$135,453, selling, general, and administrative expenses of \$64,832, and income tax expense of \$3,534, or a total of \$203,819.

Information about revenues, expenses, and profitability is reported on the income statement.

204. What is the purpose of an income statement?

ANSWER: An income statement reports the company's revenues and expenses for a period of time and shows the company's operating performance and profitability (or lack of).

205. You Decide Essay

You are the chairman of the board of directors of NuWave Technology. You are in Vegas attending the company's annual meeting and it is now time for the question and answer session with shareholders. The very first question you take is this: "I own stock in a dozen companies. Every one of them pays me dividends except NuWave. Why is that?" How do you respond?

ANSWER: First, point out that retained earnings is an important source of financing for NuWave. Then explain that you believe that it is in the shareholders' best interest to reinvest the company's earnings into the many profitable growth opportunities available rather than pay dividends. If a firm has been profitable for many years and if its stockholders have been willing to forgo large dividends, retained earnings may be a large portion of equity. Remind them that the reinvestment of the earnings hopefully will result in increased wealth for them in the future as the company profits from its growth.
