## ANSWERS TO QUESTIONS

1. A T-account has the following parts: (a) the title, (b) the left or debit side, and (c) the right or credit side.

LO 1 BT: K Difficulty: Easy TOT: 1 min. AACSB: None AICPA FC: Reporting IMA: Reporting

2. Disagree. The terms debit and credit mean left and right respectively.

LO 1 BT: C Difficulty: Easy TOT: 1 min. AACSB: None AICPA FC: Reporting IMA: Reporting

3. Tom is incorrect. The double-entry system merely records the dual effect (at least two accounts are affected) of a transaction on the accounting equation. A transaction is not recorded twice; it is recorded once, with a dual effect.

LO 1 BT: C Difficulty: Easy TOT: 1 min. AACSB: None AICPA FC: Reporting IMA: Reporting

4. Olga is incorrect. A debit balance only means that debit amounts exceed credit amounts in an account. Conversely, a credit balance only means that credit amounts are greater than debit amounts in an account. Thus, a debit or credit balance is neither favorable nor unfavorable.

LO 1 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting

5. (a) Asset accounts are increased by debits and decreased by credits.  
(b) Liability accounts are decreased by debits and increased by credits.  
(c) Revenues, common stock, and retained earnings are increased by credits and decreased by debits. Expenses and dividends are increased by debits and decreased by credits.

LO 1 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting

6. (a) Accounts Receivable—debit balance.  
(b) Cash—debit balance.  
(c) Dividends—debit balance.  
(d) Accounts Payable—credit balance.  
(e) Service Revenue—credit balance.  
(f) Salaries and Wages Expense—debit balance.  
(g) Common Stock—credit balance.

(2) Accounts Receivable—both debit and credit entries.  
(3) Dividends—debit entries only.  
(4) Accounts Payable—both debit and credit entries.  
(5) Salaries and Wages Expense—debit entries only.  
(6) Service Revenue—credit entries only.

LO 1 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting

- 10.** The basic steps in the recording process are:
1. Analyze each transaction for its effect on the accounts.
  2. Enter the transaction information in a journal.
  3. Transfer the journal information to the appropriate accounts in the ledger.

LO 2 BT: K Difficulty: Easy TOT: 1 min. AACSB: None AICPA FC: Reporting IMA: Reporting

**Questions Chapter 2 (Continued)**

- 11.** The advantages of using the journal in the recording process are:
- (a) It discloses in one place the complete effects of a transaction.
  - (b) It provides a chronological record of all transactions.
  - (c) It helps to prevent or locate errors because the debit and credit amounts for each entry can be easily compared.

LO 2 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting

- 12.** (a) The debit should be entered first.  
 (b) The credit should be indented.

LO 2 BT: K Difficulty: Easy TOT: 1 min. AACSB: None AICPA FC: Reporting IMA: Reporting

- 13.** When three or more accounts are required in one journal entry, the entry is referred to as a compound entry. An example of a compound entry is the purchase of equipment, part of which is paid for with cash and the remainder is on account.

LO 2 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting

- 14.** (a) No, business transaction debits and credits should not be recorded directly in the ledger.  
 (b) The advantages of using the journal are:
- 1. It discloses in one place the complete effects of a transaction.
  - 2. It provides a chronological record of all transactions.
  - 3. It helps to prevent or locate errors because the debit and credit amounts for each entry can be easily compared.

LO 2 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting

- 15.** The advantage of the last step in the posting process is to indicate that the item has been posted.

**Questions Chapter 2 (Continued)**

- 18.** A trial balance is a list of accounts and their balances at a given time. The primary purpose of a trial balance is to prove (check) that the debits equal the credits after posting. A trial balance also facilitates the discovery of errors in journalizing and posting. In addition, it is useful in preparing financial statements.

LO 4 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting

- 19.** No, Juan is not correct. The proper sequence is as follows:

- (b) Business transaction occurs.
- (c) Information entered in the journal.
- (a) Debits and credits posted to the ledger.
- (e) Trial balance is prepared.
- (d) Financial statements are prepared.

LO 2 BT: K Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting

## BRIEF EXERCISE 2-4

The basic steps in the recording process are:

1. **Analyze each transaction. In this step, business documents are examined to determine the effects of the transaction on the accounts.**
2. **Enter each transaction in a journal. This step is called journalizing and it results in making a chronological record of the transactions.**
3. **Transfer journal information to ledger accounts. This step is called posting. Posting makes it possible to accumulate the effects of journalized transactions on individual accounts.**

- (a) The reason the Green Bay Packers' issue an annual report is because they are a publicly owned, nonprofit company. It issues the report to more than 100,000 shareholders who hold shares. None of the other teams are publicly owned, so they have no obligation to make their financial information available except to their small group of owners.
- (b) At the time that the article was written the owners of the NFL teams and the players' labor union were negotiating a new contract. Knowing how profitable the NFL teams are would be useful information for the players to know so that they would have a better sense of how much the teams could afford to pay. The Packers is obviously a "small market" team; it is not necessarily representative of teams in general. However, the Packers' annual report does give the players some sense of the profitability of other teams.
- (c) Since some of the cost of the stadium that the Packers play in is covered by taxpayers, the county and state government has an interest in the team's finances.

In the first transaction, bills totaling \$6,000 were sent to customers for services performed. Therefore, the asset Accounts Receivable is increased \$6,000 and the revenue Service Revenue is increased \$6,000. Debits increase assets and credits increase revenues, so the journal entry is:

Accounts Receivable .....	6,000	
Service Revenue .....		6,000
(Billed customers for services performed)		

The \$6,000 amount is then posted to the debit side of the general ledger account Accounts Receivable and to the credit side of the general ledger account Service Revenue.

In the second transaction, \$2,000 was paid in salaries to employees. Therefore, the expense Salaries and Wages Expense is increased \$2,000 and the asset Cash is decreased \$2,000. Debits increase expenses and credits decrease assets, so the journal entry is:

Salaries and Wages Expense .....	2,000	
Cash .....		2,000
(Salaries and wages paid)		

The \$2,000 amount is then posted to the debit side of the general ledger account Salaries and Wages Expense and to the credit side of the general ledger account Cash.

The decision whether to fire Mr. Edmondson was the responsibility of Radio Shack's board of directors, which is elected by the company's shareholders to oversee management. The board initially announced its support for the CEO. After further investigation, the board encouraged Mr. Edmondson to resign, which he did. In contrast, when Bausch & Lomb's CEO offered to resign in a similar situation, the company's board refused to accept his resignation. Board members stated that they felt he was still the best person for the position.

Radio Shack says that although it did a reference check at the time of Mr. Edmondson's hiring, it did not check his educational credentials. Under the Sarbanes-Oxley Act, companies must now perform thorough background checks as part of a check of internal controls. ## ALL ABOUT YOU

- (a) Students' responses to this question will vary. It is important that the steps that they identify be as specific as possible, and clearly directed toward achieving their goal. You may wish to ask a follow-up question asking them to explain how each step will assist them in achieving their goal.
- (b) There are many sites on the Internet that provide information about preparing a résumé. For example, you can find extensive resources at: <http://www.rileyguide.com/resprep.html>. Many schools also have resources in their placement centers or writing labs. The Writing Center at Rensselaer Polytechnic Institute provides useful, concise information on its website at <http://www.ccp.rpi.edu/resources/careers-and-graduate-school/resumes>. A wide variety of sample résumés can be found. For example, Monster.com provides samples for a wide variety of professions and situations at <http://www.career-advice.monster.com/resumes-cover-letters/resume-samples/jobs.aspx>.
- (c) It is important to provide accurate and complete documentation of all relevant training, education, and employment experiences so as to provide assurance to the potential employer, and also to enable that employer to do follow-up work. If you say you have certain skills, such as computer skills, try to substantiate the claim with recognized proof of proficiency. Make sure that all addresses and phone numbers are accurate and up-to-date. Also, ensure that the people you use as references have a copy of your résumé and cover letter, and that they are informed that you are interviewing so they know to expect a call.

## CONSIDERING PEOPLE, PLANET AND PROFIT

- (a) The existence of three different forms of certification would most likely create confusion for coffee purchasers. It would be difficult to know what aspects of the coffee growing process each certification covered. Similarly, if there were multiple groups that certified financial statements, each with different criteria, it would be difficult for financial statement users to know what each certification promised.
- (b) The Starbucks certification appears to be the most common in that area. It has the advantage of having a direct link to the Starbucks coffee market. Although it does not guarantee that Starbucks will buy its coffee, it is a requirement that must be met before Starbucks will buy somebody's coffee. Note that the article states that the Starbucks certification "Incorporates elements of social responsibility and environmental leadership, but quality of coffee is the first criteria." The Smithsonian Bird Friendly is considered to have the strictest requirements and, as a result, appears to be the least common.
- (c) The certifications have multiple objectives including organic farming as a means to protect bird species, biodiversity and wildlife habitat. Some included requirements are to improve workers' living conditions, such as providing running water in worker housing, child labor regulations and education requirements. As mentioned above, the Starbucks certification has the potential financial benefit of making Starbucks a potential customer, which can stabilize farmers' earnings. Certifications can also be financially beneficial because companies can benefit from the positive relations effects of either producing or buying coffee produced using sustainable practices.

## **The Recording Process**

### **LEARNING OBJECTIVES**

- 1. DESCRIBE HOW ACCOUNTS, DEBITS, AND CREDITS ARE USED TO RECORD BUSINESS TRANSACTIONS.**
- 2. INDICATE HOW A JOURNAL IS USED IN THE RECORDING PROCESS.**
- 3. EXPLAIN HOW A LEDGER AND POSTING HELP IN THE RECORDING PROCESS.**
- 4. PREPARE A TRIAL BALANCE.**
- 5. COMPARE THE PROCEDURES FOR THE RECORDING PROCESS UNDER GAAP AND IFRS.**

# CHAPTER REVIEW

## The Account

1. (L.O. 1) An **account** is an individual accounting record of increases and decreases in a specific asset, liability, or stockholders' equity item.
2. In its simplest form, an account consists of (a) the title of the account, (b) a left or debit side, and (c) a right or credit side. The alignment of these parts resembles the letter T, and therefore the account form is called a **T-account**.

## Debits and Credits

3. The terms **debit** and **credit** mean left and right, respectively.
  - a. The act of entering an amount on the left side of an account is called **debiting** the account and making an entry on the right side is **crediting** the account.
  - b. When the debit amounts exceed the credits, an account has a **debit balance**; when the reverse is true, the account has a **credit balance**.
4. In a **double-entry** system, equal debits and credits are made in the accounts for each transaction. Thus, the total debits will always equal the total credits.
5. The effects of debits and credits on **assets** and **liabilities** and the normal balances are:

<u>Accounts</u>	<u>Debits</u>	<u>Credits</u>	<u>Normal Balance</u>
Assets	Increase	Decrease	Debit
Liabilities	Decrease	Increase	Credit

6. Accounts are kept for each of the five subdivisions of stockholders' equity: Common Stock, Retained Earnings, Dividends, Revenues, and Expenses.
7. The effects of debits and credits on the stockholders' equity accounts and the normal balances are:

<u>Accounts</u>	<u>Debits</u>	<u>Credits</u>	<u>Normal Balance</u>
Common Stock	Decrease	Increase	Credit
Retained Earnings	Decrease	Increase	Credit
Dividends	Increase	Decrease	Debit
Revenues	Decrease	Increase	Credit
Expenses	Increase	Decrease	Debit

8. The expanded basic equation is:

$$\text{Assets} = \text{Liabilities} + \text{Common Stock} + \text{Retained Earnings} + \text{Revenues} - \text{Expenses} - \text{Dividends}$$

## The Recording Process

9. (L.O. 2) The basic steps in the recording process are:
  - a. Analyze each transaction for its effect on the accounts.
  - b. Enter the transaction information in a **journal**.
  - c. Transfer the journal information to the appropriate accounts in the **ledger**.

### The Journal

10. Transactions are initially recorded in a journal.
  - a. A journal is referred to as a book of original entry.
  - b. A **general journal** is the most basic form of journal.
11. The journal makes several significant contributions to the recording process:
  - a. It discloses in one place the complete effect of a transaction.
  - b. It provides a chronological record of transactions.
  - c. It helps to prevent or locate errors because the debit and credit amounts for each entry can be readily compared.
12. Entering transaction data in the journal is known as **journalizing**. When only two accounts are required for a journal entry it is referred to as a **simple entry**. If three or more accounts are required in one journal entry, the entry is known as a **compound entry**.

### The Ledger

13. (L.O. 3) The **general ledger** is the entire group of accounts maintained by a company. It keeps in one place all the information about changes in account balances and it is a source of useful data for management.
14. The **standard form of a ledger account** has three columns and the balance in the account is determined after each transaction.
15. **Posting** is the procedure of transferring journal entries to the ledger accounts. The following steps are used in posting:
  - a. In the ledger, in the appropriate columns of the account(s) debited, enter the date, journal page, and debit amount shown in the journal.
  - b. In the reference column of the journal, write the account number to which the debit amount was posted.
  - c. Perform the same steps in a. and b. for the credit amount.

### The Chart of Accounts

16. A **chart of accounts** is a listing of the accounts and the account numbers which identify their location in the ledger. The numbering system usually starts with the balance sheet accounts and follows with the income statement accounts.

### The Recording Process

17. The basic steps in the recording process are illustrated as follows:

**Transaction** On September 4, Fesmire Inc. pays \$3,000 cash to a creditor in full payment of the balance due.

**Basic analysis** The liability Accounts Payable is decreased \$3,000, and the asset Cash is decreased \$3,000.

**Debit-credit analysis**      Debits decrease liabilities: debit Accounts Payable \$3,000.  
Credits decrease assets: credit Cash \$3,000.

<b>Journal entry</b>	Sept. 4	Accounts Payable	201	3,000	
		Cash (Paid creditor in full)	101		3,000

<b>Posting</b>	Cash		1	Accounts Payable		201
		Sept. 4	3,000	Sept. 4	3,000	

### The Trial Balance

18. (L.O. 4) A **trial balance** is a list of accounts and their balances at a given time. The trial balance proves the mathematical equality of the debits and credits after posting.
19. A trial balance does not prove that the company has recorded all transactions or that the ledger is correct because the trial balance may still balance when
  - a. a transaction is not journalized.
  - b. a correct journal entry is not posted.
  - c. an entry is posted twice.
  - d. incorrect accounts are used in journalizing or posting.
  - e. offsetting errors are made in recording the amount of a transaction.

### A Look at IFRS

20. (L. O. 5) The following are the key similarities and differences between GAAP and IFRS as related to the recording process.
  - a. Similarities:
    - (1) Transaction analysis is the same under IFRS and GAAP.
    - (2) Both the IASB and the FASB go beyond the basic definitions for assets, liabilities, equity, revenues, and expenses.
    - (3) Currency signs are typically used only in the trial balance and the financial statements under both IFRS and GAAP.
    - (4) The format of the trial balance is the same under IFRS and GAAP.
  - b. Differences:
    - (1) IFRS relies less on historical cost and more on fair value than do FASB standards.
    - (2) Many non-U.S. companies have never completely documented their system of internal controls nor had an independent auditor attest to their effectiveness.

## LECTURE OUTLINE

### A. The Account.

An account is an accounting record of increases and decreases in a specific asset, liability, or stockholders' equity item.

An account consists of three parts:

1. A title.
2. A left or debit side.
3. A right or credit side.

### B. Debits and Credits.

The terms debit and credit are directional signals: Debit indicates left, and credit indicates right.

1. Assets, dividends, and expenses are increased by debits and decreased by credits.
2. Liabilities, common stock, retained earnings, and revenues are increased by credits and decreased by debits.

### **C. The Recording Process.**

Businesses use three basic steps in the recording process:

1. Analyze each transaction for its effects on the accounts.
2. Enter the transaction information in a journal.
3. Transfer the journal information to the appropriate accounts in the ledger.

### **D. The General Journal/Journalizing.**

Entering transaction data in the general journal is called journalizing.

The general journal:

1. Discloses in one place the complete effects of a transaction.
2. Provides a chronological record of transactions.
3. Helps to prevent or locate errors because the debit and credit amounts for each entry can be easily compared.
4. A simple journal entry involves only two accounts (one debit and one credit) whereas a compound journal entry involves three or more accounts.

## **E. The Ledger.**

The ledger is the entire group of accounts maintained by a company. A general ledger contains all the assets, liabilities, and stockholders' equity accounts.

1. The ledger provides the balance in each of the accounts as well as keeps track of changes in these balances.
2. Companies arrange the ledger in the sequence in which they present the accounts in the financial statements, beginning with the balance sheet accounts.

## **F. Posting/Chart of Accounts.**

1. Posting is transferring journal entries to the ledger accounts.
2. Posting involves the following steps:
  - a. In the ledger, in the appropriate columns of the account(s) debited, enter the date, journal page, and debit amount shown in the journal.
  - b. In the reference column of the journal, write the account number to which the debit amount was posted.
  - c. In the ledger, in the appropriate columns of the account(s) credited, enter the date, journal page, and credit amount shown in the journal.
  - d. In the reference column of the journal, write the account number to which the credit amount was posted.
3. A chart of accounts lists the accounts and the account numbers that identify their location in the ledger. Accounts are usually numbered starting with the balance sheet accounts followed by income statement accounts.

## **G. Trial Balance.**

A trial balance is a list of accounts and their balances at a given time.

1. It proves the mathematical equality of debits and credits after posting.
2. It may also uncover errors in journalizing and posting.
3. It is useful in the preparation of financial statements.

# IFRS

## A Look At IFRS

International companies use the same set of procedures and records to keep track of transaction data. Thus, the material in Chapter 2 dealing with the account, general rules of debit and credit, and steps in the recording process—the journal, ledger, and chart of accounts—is the same under both GAAP and IFRS.

## KEY POINTS

### Similarities

- Transaction analysis is the same under IFRS and GAAP.
- Both the IASB and FASB go beyond the basic definitions provided in this textbook for the key elements of financial statements, that is, assets, liabilities, equity, revenues, and expenses. The implications of the expanded definitions are discussed in more advanced accounting courses.
- As shown in the textbook, dollar signs are typically used only in the trial balance and the financial statements. The same practice is followed under IFRS, using the currency of the country that the reporting company is headquartered.
- A trial balance under IFRS follows the same format as shown in the textbook.

### Differences

- IFRS relies less on historical cost and more on fair value than due FASB standards.
- Internal controls are a system of checks and balances designed to prevent and detect fraud and errors. While most public U. S. companies have these systems in place, many non-U. S. companies have never completely documented the controls nor had an independent auditor attest to their effectiveness.

## LOOKING TO THE FUTURE

The basic recording process shown in this textbook is followed by companies across the globe. It is unlikely to change in the future. The definitional structure of assets, liabilities, equity, revenues, and expenses may change over time as the IASB and FASB evaluate their overall conceptual framework for establishing accounting standards.

## 20 MINUTE QUIZ

Circle the correct answer.

### True/False

1. Assets are increased by debits and liabilities are decreased by credits.  
True      False
2. The common stock account is increased by credits.  
True      False
3. An account will have a credit balance if the total debit amounts exceed the total credit amounts.  
True      False
4. The ledger is the entire group of accounts maintained by a company.  
True      False
5. The basic steps in the recording process are (1) to analyze each transaction, (2) to enter the transaction in a journal, and (3) to transfer the journal entry to the appropriate ledger accounts.  
True      False
6. Transferring journal entries to the ledger accounts is called posting and should be performed in chronological order.  
True      False
7.  $\text{Assets} = \text{liabilities} + \text{common stock} + \text{retained earnings} + \text{revenues} - \text{expenses} - \text{dividends}$  is a correct form of the expanded basic accounting equation.  
True      False
8. In posting, one should enter "J2" in the Post. Ref. Column on page two of the journal.  
True      False
9. When the columns of the trial balance equal each other, it proves no errors occurred in recording and posting.  
True      False
10. The double-entry system is possible because all business transactions may be expressed in equal debit and credit entries.  
True      False

### Challenge Exercise 1

Expands on: E2-2

LO: 1

Wunderkind Photography entered into the following transactions during February 2019

1. Stockholders invested \$5,000 in the business.
2. Bought photography equipment for a cash payment of \$1,000.
3. Bought more photography equipment by signing a \$500 note payable.
4. Performed photography services for \$400 cash.
5. Performed photography services, and billed the customer \$900 on account.
6. Collected \$900 from the customer in item 5.
7. Paid for February developing and printing, \$150.
8. Advertised the business in the Platteville Journal. The \$100 cost will be billed to Wunderkind.
9. Paid the advertising bill from item 8.
10. Paid \$200 for photography supplies.
11. Received \$300 cash advance payment from a customer for a photography job to be performed in April.
12. Paid \$250 dividend to the stockholders.

#### Instructions:

For each transaction indicate the following:

- (a) The basic type of account debited and credited (asset, liability, stockholder's equity).
- (b) The specific account debited and credited (cash, rent expense, service revenue, etc.).
- (c) Whether the specific account is increased or decreased.
- (d) The normal balance of each specific account.

Use the following format, in which the first transaction is given as an example.
