Solutions

CASE 2

1. ABC is beneficial when traditional overhead allocation results in inaccurate product costing. Wall Dêcor should investigate the product costing system because in order to sell the unframed prints the stores must mark them up only slightly above their cost, while the framed prints enjoy a large profit margin. Traditional overhead allocation often results in inappropriate overhead allocation when one product is a high-volume item (in this case, the unframed prints) and another product is a more complex, low-volume item (in this case, the framed prints).

Another indication that ABC would be beneficial occurs when company managers have begun to develop their own costing systems because they have lost faith in the traditional system. In this case, the production manager does not have faith in the company's costing system and instead has developed her own costing system.

2. The activity-based overhead rates can be calculated by dividing the estimated overhead associated with each activity by the expected use of the cost driver.

Activity	Cost Driver	Estimated Overhead	Expected Use of Cost Driver	Activity-Based Overhead Rate
Picking prints	Number of prints	\$ 30,600	(80,000 + 15,000 + 7,000) = 102,000 prints	\$0.30 per pick
Inventory selection and management	Number of \$91,700 components: Print (1) Print and frame (2) Print, mat, and frame (3)		Prints: 80,000 components Print and frame: 15,000 X 2 = 30,000 components Print, mat, and frame: 7,000 X 3 = 21,000 components Total = 131,000 components	\$0.70 per component
Website optimization	Number of prints at capacity			
Unframed		\$ 25,800	Unframed prints— 100,000 print capacity	\$0.258 per print
Framed		\$103,200	Framed or framed and matted prints— 25,000 capacity	\$4.128 per framed or framed and matted print
Framing and matting	Number of components at capacity	\$123,900 \$375,200	Print and frame: 16,000 X 2 = 32,000 components at capacity Print, mat, and frame: 9,000 X 3 = 27,000 components at capacity Total = 59,000 components	\$2.10 per component

3.	Description	Lance Armstrong Print	John Elway Steel-Framed Print, No Matting	Lambeau Field Wood-Framed Print, with Matting
	Direct materials			
	Print	\$12.00	\$16.00	\$20.00
	Frame and glass	Ψ12.00	4.00	6.00
	Matting			4.00
	Total	12.00	20.00	30.00
	Direct labor			
	Picking			
	([10/60] X \$12)	2.00	2.00	2.00
	Matting and framing			
	([20/60] X \$21)		7.00	
	([30/60] X \$21)			<u> 10.50</u>
	Total	2.00	9.00	12.50
	Manufacturing overhead by activity Picking prints			
	@ \$0.30 per pick	0.30	0.30	0.30
	Inventory selection and management @ \$0.70 per component			
	(1, 2, and 3)	0.70	1.40	2.10
	Website optimization @ \$0.258 per print	0.258	0.00	0.00
	@ \$4.128 per framed or framed and matted		4.128	4.128
	Framing and matting @ \$2.10 per component Total	1.258	4.20 10.028	6.30 12.828
	Total product cost	<u>\$15.258</u>	<u>\$39.028</u>	<u>\$55.328</u>

4. In Case 1 the high-volume prints consumed the greatest amount of overhead because it was assumed all manufacturing overhead was driven by print cost combined with sales volume, regardless of the mix of unframed prints and framed prints. Since far more unframed prints were sold, most of the overhead was allocated to unframed prints.

Under ABC, this changes. Although still based on estimates, ABC first provides an analysis of how resources were consumed by activity. Next, in the second step of allocation, activity costs are allocated to unframed prints and framed prints using different types of drivers. These drivers are designed to model how manufacturing overhead resources were consumed at the product level. For example, the last activity (framing and matting) is allocated to framed items only. The reason is that unframed prints do not consume framing and matting equipment, space, and general overhead resources.

The primary implication for the company is that the product costs will be more accurate, which will result in better product pricing and more accurate evaluation of the relative profitability of the products.

- 5. There are some costs that are very difficult to allocate because it is difficult to determine a meaningful cost driver that captures differences across products. Time and resources dedicated to web optimization for an integrated system fall into this category. In this case, in order to reflect the significant difference between the amount of time spent on web optimization by the IT staff on unframed prints versus framed prints, the total cost of web optimization was first split between these two categories. Time of IT staff was used to subdivide the cost by resource consumption between unframed prints and framed prints. This allocation, although it may appear simple, is sometimes very difficult to accomplish in the real world. Once identified, management can see that much of IT's resources are being consumed by framed and matted items.
- 6. The advantage of ABC versus traditional predetermined overhead allocation is that ABC allocates costs based on the activities that generate those costs. This results in more accurate product costing. By breaking costs down into more refined categories, product costing will be even more accurate. However, having more categories is costly from a record-keeping perspective. Increasingly, there is an effort by ABC consultants to "keep it simple" so as to reduce the cost of implementing ABC. It is believed that many of the benefits of ABC can be attained with relatively simple systems.

7. By allocating fixed overhead costs using operating capacity as the basis, management can see how much, approximately, each item costs at capacity. Although this is somewhat arbitrary, it does provide a benchmark for comparability and improvement. The advantage is that management can manage costs based on a standard.

If expected sales volume is used to allocate fixed overhead costs, then the allocation rate will fluctuate as sales fluctuate. This reduces the usefulness of analysis across years and makes planning very difficult. In fact, it can result in a vicious cycle: As volume decreases, the fixed cost per unit goes up, so product cost goes up. In response, management raises prices (because the product cost has risen). When the price rises, volume falls even further, and the cycle starts over again. Keep in mind that costs must be controlled at the activity level. Therefore, an activity cost at a standard is what is necessary for measurement, resource allocation, and evaluation. By allocating based on capacity these fluctuations can be eliminated (as long as capacity doesn't vary). Therefore, the use of operating capacity for allocating fixed overhead costs can result in better decision making.

8. (a) The allocation of the overhead to the three product categories would be as follows:

Unframed prints

Activity Cost Pool	Expected Use of Cost Driver	Overhead Rate	Cost Assigned
Picking prints	80,000	\$0.30	\$ 24,000
Inventory selection management	80,000	0.70	56,000
Website optimization	80,000	0.258	20,640
Framing and matting	na		
Total			\$100,640

Steel-framed prints

Activity Cost Pool	Expected Use of Cost Driver	Overhead Rate	Cost Assigned
Picking prints	15,000	\$0.30	\$ 4,500
Inventory selection management	30,000	0.70	21,000
Website optimization	15,000	4.128	61,920
Framing and matting	30,000	2.10	63,000
Total			<u>\$150,420</u>

Wood-framed prints with matting

Activity Cost Pool	Expected Use of Cost Driver	Overhead Rate	Cost Assigned
Picking prints	7,000	\$0.30	\$ 2,100
Inventory selection management	21,000	0.70	14,700
Website optimization	7,000	4.128	28,896
Framing and matting	21,000	2.10	44,100
Total			\$89,796

(b) The total overhead allocated was \$340,856, (\$100,640 + \$150,420 + \$89,796). This is \$34,344 less than the total overhead of \$375,200. The overhead rates for website optimization and framing and matting were both determined using the capacity amount rather than the expected sales amount. The reasons for this were discussed earlier. Since expected/actual sales were less than capacity, the overhead is underapplied. This cost of \$34,344 can be viewed as the cost of operating at less than capacity. In order to reduce this amount, management should either figure out ways to increase sales or reduce fixed costs by shifting resources to other products.

Chapter Two

Challenge Exercise 1

Expands on: E2-2

LO: 1

Wunderkind Photography entered into the following transactions during February 2022.

- 1. Stockholders invested \$5,000 in the business.
- 2. Bought photography equipment for a cash payment of \$1,000.
- 3. Bought more photography equipment by signing a \$500 note payable.
- 4. Performed photography services for \$400 cash.
- 5. Performed photography services, and billed the customer \$900 on account.
- 6. Collected \$900 from the customer in transaction5.
- 7. Paid for February developing and printing, \$150.
- 8. Advertised the business in the Platteville Journal. The \$100 cost will be billed to Wunderkind.
- 9. Paid the advertising bill from transaction 8.
- 10. Paid \$200 for photography supplies.
- 11. Received \$300 cash advance payment from a customer for a photography job to be performed in April.
- 12. Paid \$250 dividend to the stockholders.

Instructions:

For each transaction indicate the following:

- (a) The basic type of account debited and credited (asset, liability, stockholder's equity).
- (b) The specific account debited and credited (cash, rent expense, service revenue, etc.).
- (c) Whether the specific account is increased or decreased.
- (d) The normal balance of each specific account.

Use the following format, in which the first transaction is given as an example.

	Account Debited			Account Credited				
	(a)	(b)	(c)	(d)	(a)	(b)	(c)	(d)
	Basic	Specific		Normal	Basic	Specific		Normal
No.	Туре	Account	Effect	Balance	Туре	Account	Effect	Balance
1	Asset	Cash	Increase	Debit	Stockholders' Equity	Common Stock	Increase	Credit

Challenge Exercise 3

Expands on: E2-5

LO: 2

Presented here is information related to Shawshank Real Estate Agency.

- Oct. 1 Pete Shawshank begins business as a real estate agent with a cash investment of \$25,000 in exchange for common stock.
 - 2 Hires an administrative assistant.
 - 3 Purchases office furniture for \$2,900, by paying \$700 cash with the balance on account.
 - 6 Sells a house and lot for N. Kidman, earning a fee of \$3,600, with \$600 collected in cash and the balance billed to N. Kidman.
 - 27 Pays \$900 on the balance related to the transaction of October 3.
 - 30 Pays the administrative assistant \$2,300 in salary for October.
 - 31 Collects \$1,200 of the balance owed by N. Kidman.

Instructions:

- 1. Journalize the transactions. (You may omit explanations.)
- 2. What balance would Shawshank Real Estate Agency report for Accounts Payable in its October 31 financial statements? In which category of which financial statements would it be found?
- 3. What balance would Shawshank Real Estate Agency report for Accounts Receivable in its October 31 financial statements? In which category of which financial statements would it be found?

Challenge Exercise 3 – Solution

1.

1	Cash Common Stock	25,000	25,000
2	No entry, not a transaction		
3	Equipment Cash Accounts Payable	2,900	700 2,200
6	Cash Accounts Receivable Service Revenue	600 3,000	3,600
27	Accounts Payable Cash	900	900
30	Salaries and Wages Expense Cash	2,300	2,300
31	Cash	1,200	
	Accounts Receivable		1,200

^{2.} The October 31 balance of Accounts Payable is \$1,300 (\$2,200 - \$900), and would be reported in the liabilities section of the balance sheet.

^{3.} The October 31 balance of Accounts Receivable is \$1,800 (\$3,000 - \$1,200), and would be reported in the assets section of the balance sheet.

Challenge Exercise 4

Expands on: E2-14

LO: 2

Selected transactions for Tina Louise Company during its first month in business are presented here.

- Sept. 1 Invested \$20,000 cash in the business in exchange for common stock.
 - 5 Purchased equipment for \$17,000 paying \$6,000 in cash and the balance on account.
 - 11 Performed \$3,900 of services for clients, collecting \$1,000 cash and billing them for the remainder.
 - 25 Paid \$7,000 cash on balance owed for equipment.
 - 29 Declared and paid a \$600 cash dividend.
 - 30 Collected \$1,500 from the clients from the September 11 transactions.

The chart of accounts shows: No. 101 Cash, No. 112 Accounts Receivable, No. 157 Equipment, No. 201 Accounts Payable, No. 311 Common Stock, No. 332 Dividends, and No. 400 Service Revenue.

Instructions:

- (a) Journalize the transactions on page J1 of the journal.
- (b) Post the transactions using the standard account form.
- (c) Based only on these transactions, what amount would Tina Louise report as total assets in the September 30 balance sheet?
- (d) Based only on these transactions, what amount would Tina Louise report as total liabilities in the September 30 balance sheet?

Challenge Exercise 4 – Solution

(a)

Challenge Exercise 5

Expands on: E2-16

LO: 4

The accounts in the ledger of Sun Delivery Service contain the following balances on July 31, 2022.

Accounts Receivable	\$ 8,000	Prepaid Insurance	\$ 2,000
Accounts Payable	7,900	Retained Earnings	5,000
Cash	?	Service Revenue	11,000
Common Stock	42,000	Salaries and Wages Expense	?
Dividends	900	Salaries and Wages Payable	1,000
Equipment	50,000	Supplies	3,000
Gasoline and Oil Expense	800	Unearned Service Revenue	2,500
Insurance Expense	600	Maintenance and Repair Expense	1,100
Notes Payable	19,000		

Instructions:

Prepare a trial balance with the accounts arranged as illustrated in the chapter and fill in the missing amounts for Cash and Salaries Expense. Assume net income for the period is \$3,500.

Challenge Exercise 5 – Solution

SUN DELIVERY SERVICE Trial Balance July 31, 2022

	Debit	
Credit		
Cash**	\$17,000	
Accounts Receivable	8,000	
Supplies	3,000	
Prepaid Insurance	2,000	
Equipment	50,000	
Notes Payable		\$19,000
Accounts Payable		7,900
Salaries and Wages Payable		1,000
Unearned Service Revenue		2,500
Common Stock		42,000
Retained Earnings		5,000
Dividends	900	
Service Revenue		11,000
Salaries and Wages Expense*	5,000	
Maintenance and Repair Expense	1,100	
Gasoline and Oil Expense	800	
Insurance Expense	<u>600</u>	
	<u>\$88,400</u>	<u>\$88,400</u>

^{*\$11,000 - \$1,100 - \$800 - \$600 -} Salaries and Wages Expense = \$3,500; Salaries and Wages Expense = \$5,000.

^{**\$88,400 (}total credits) - \$71,400 (total debits without cash) = \$17,000 Cash.

CHAPTER 2

The Recording Process

ASSIGNMENT CLASSIFICATION TABLE

			Brief			Α
Lea	rning Objectives	Questions	Exercises	Do It!	Exercises	Problems
1.	Describe how accounts, debits, and credits are used to record business transactions.	1, 2, 3, 4, 5, 6, 7, 8, 9, 21	1, 2, 5	1	1, 2, 4, 6, 7	
2.	Indicate how a journal is used in the recording process.	10, 11, 12, 13, 14, 16, 19	3, 4, 6	2	3, 5, 6, 7, 8, 9, 12, 13, 14, 17	
3.	Explain how a ledger and posting help in the recording process.	15, 17	7, 8	3	10, 11, 14, 17	2A, 3A, 5A
4.	Prepare a trial balance.	18, 20	9, 10	4	11, 12, 13, 15, 16, 17	2A, 3A, 4A, 5A

ANSWERS TO QUESTIONS

- 1. A T-account has the following parts: (a) the title, (b) the left or debit side, and (c) the right or credit side.
- LO 1 BT: K Difficulty: Easy TOT: 1 min. AACSB: None AICPA FC: Reporting IMA: Reporting
 - 2. False. The terms debit and credit mean left and right respectively.
- LO 1 BT: C Difficulty: Easy TOT: 1 min. AACSB: None AICPA FC: Reporting IMA: Reporting
- 3. Tom is incorrect. The double-entry system merely records the dual effect (at least two accounts are affected) of a transaction on the accounting equation. A transaction is not recorded twice; it is recorded once, with a dual effect.
- LO 1 BT: C Difficulty: Easy TOT: 1 min. AACSB: None AICPA FC: Reporting IMA: Reporting
- **4.** Olga is incorrect. A debit balance only means that debit amounts exceed credit amounts in an account. Conversely, a credit balance only means that credit amounts are greater than debit amounts in an account. Thus, a debit or credit balance is neither favorable nor unfavorable.
- LO 1 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting
- **5.** (a) Asset accounts are increased by debits and decreased by credits.
 - (b) Liability accounts are decreased by debits and increased by credits.
 - (c) Revenues, common stock, and retained earnings are increased by credits and decreased by debits. Expenses and dividends are increased by debits and decreased by credits.
- LO 1 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting
- 6. (a) Accounts Receivable—debit balance.
 - (b) Cash—debit balance.
 - (c) Dividends—debit balance.
 - (d) Accounts Payable—credit balance.
 - (e) Service Revenue—credit balance.
 - (f) Salaries and Wages Expense—debit balance.
 - (g) Common Stock—credit balance.
- LO 1 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting
- **7.** (a) Accounts Receivable—asset—debit balance.
 - (b) Accounts Payable—liability—credit balance
 - (c) Equipment—asset—debit balance.
 - (d) Dividends—stockholders' equity—debit balance.
 - (e) Supplies—asset—debit balance.
- LO 1 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting
 - **8.** (a) Debit Supplies and credit Accounts Payable.
 - (b) Debit Cash and credit Notes Payable.
 - (c) Debit Salaries and Wages Expense and credit Cash.
- LO 1 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting

Questions Chapter 2 (Continued)

- 9. (1) Cash—both debit and credit entries.
 - (2) Accounts Receivable—both debit and credit entries.
 - (3) Dividends—debit entries only.
 - (4) Accounts Payable—both debit and credit entries.
 - (5) Salaries and Wages Expense—debit entries only.
 - (6) Service Revenue—credit entries only.
 - LO 1 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting
- **10.** The basic steps in the recording process are:
 - 1. Analyze each transaction for its effect on the accounts.
 - 2. Enter the transaction information in a journal.
 - 3. Transfer the journal information to the appropriate accounts in the ledger.
- LO 2 BT: K Difficulty: Easy TOT: 1 min. AACSB: None AICPA FC: Reporting IMA: Reporting
- **11.** The advantages of using the journal in the recording process are:
 - (a) It discloses in one place the complete effects of a transaction.
 - (b) It provides a chronological record of all transactions.
 - (c) It helps to prevent or locate errors because the debit and credit amounts for each entry can be easily compared.
- LO 2 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting
- **12.** (a) The debit should be entered first.
 - (b) The credit should be indented.
- LO 2 BT: K Difficulty: Easy TOT: 1 min. AACSB: None AICPA FC: Reporting IMA: Reporting
- 13. When three or more accounts are required in one journal entry, the entry is referred to as a compound entry. An example of a compound entry is the purchase of equipment, part of which is paid for with cash and the remainder is on account.
- LO 2 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting
- **14.** (a) No, business transaction debits and credits should not be recorded directly in the ledger.
 - (b) The advantages of using the journal are:
 - 1. It discloses in one place the complete effects of a transaction.
 - 2. It provides a chronological record of all transactions.
 - 3. It helps to prevent or locate errors because the debit and credit amounts for each entry can be easily compared.
- LO 2 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting
- **15.** The advantage of the last step in the posting process is to indicate that the item has been posted. LO 3 BT: K Difficulty: Easy TOT: 1 min. AACSB: None AICPA FC: Reporting IMA: Reporting

16.	(a)	Cash	9.000	
	()	Common Stock(Issued shares of stock for cash)	7,222	9,000
	(b)	Prepaid Insurance	800

- **18.** A trial balance is a list of accounts and their balances at a given time. The primary purpose of a trial balance is to prove (check) that the debits equal the credits after posting. A trial balance also facilitates the discovery of errors in journalizing and posting. In addition, it is useful in preparing financial statements.
- LO 4 BT: C Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting
- **19.** No, Juan is not correct. The proper sequence is as follows:
 - (b) A business transaction occurs.
 - (c) Information is entered in the journal.
 - (a) Debits and credits are posted to the ledger.
 - (e) The trial balance is prepared.
 - (d) Financial statements are prepared.
- LO 2 BT: K Difficulty: Easy TOT: 2 min. AACSB: None AICPA FC: Reporting IMA: Reporting

BRIEF EXERCISE 2.4

The basic steps in the recording process are:

- 1. Analyze each transaction. In this step, business documents are examined to determine the effects of the transaction on the accounts.
- 2. Enter each transaction in a journal. This step is called journalizing and it results in making a chronological record of the transactions.
- 3. Transfer journal information to ledger accounts. This step is called posting. Posting makes it possible to accumulate the effects of journalized transactions on individual accounts.

REAL-WORLD FOCUS

The answer is dependent upon the company selected by the student.

LO N/A BT: AP, S Difficulty: Moderate TOT: 20 min. AACSB: Analytic, Technology AICPA PC: Communication IMA: Information Management

REAL-WORLD FOCUS

- (a) The reason the Green Bay Packers' issue an annual report is because they are a publicly owned, nonprofit company. It issues the report to more than 100,000 shareholders who hold shares. None of the other teams are publicly owned, so they have no obligation to make their financial information available except to their small group of owners.
- (b) At the time that the article was written the owners of the NFL teams and the players' labor union were negotiating a new contract. Knowing how profitable the NFL teams are would be useful information for the players to know so that they would have a better sense of how much the teams could afford to pay. The Packers is obviously a "small market" team; it is not necessarily representative of teams in general. However, the Packers' annual report does give the players some sense of the profitability of other teams.
- (c) Since some of the cost of the stadium that the Packers play in is covered by taxpayers, the county and state governments have an interest in the team's finances.
- (d) The Packers' revenues increased during recent years. However, because the cost of players' salaries increased at a faster rate than revenues, the Packers' operating profit actually declined.

COMMUNICATION ACTIVITY

Date: May 25, 2022

To: Accounting Instructor

From: Student

In the first transaction, bills totaling \$6,000 were sent to customers for services performed. Therefore, the asset Accounts Receivable is increased \$6,000 and the revenue Service Revenue is increased \$6,000. Debits increase assets and credits increase revenues, so the journal entry is:

Accounts Receivable	6,000	
Service Revenue		6,000
(Billed customers for services performed)		

The \$6,000 amount is then posted to the debit side of the general ledger account Accounts Receivable and to the credit side of the general ledger account Service Revenue.

In the second transaction, \$2,000 was paid in salaries to employees. Therefore, the expense Salaries and Wages Expense is increased \$2,000 and the asset Cash is decreased \$2,000. Debits increase expenses and credits decrease assets, so the journal entry is:

Salaries and Wages Expense	2,000	
Cash		2,000
(Salaries and wages paid)		•

The \$2,000 amount is then posted to the debit side of the general ledger account Salaries and Wages Expense and to the credit side of the general ledger account Cash.

ETHICS CASE

- (a) The stakeholders in this situation are:
 - ► Meredith Ward, assistant chief accountant.
 - ▶ Users of the company's financial statements.
 - ► The Frazier Company.
- (b) By adding \$1,000 to the Equipment account, that account total is intentionally misstated. By not locating the error causing the imbalance, some other account may also be misstated by \$1,000. If the amount of \$1,000 is determined to be immaterial, and the intent is not to commit fraud (cover up an embezzlement or other misappropriation of assets), Meredith's action might not be considered unethical in the preparation of interim financial statements. However, if Meredith is violating a company accounting policy by her action, then she is acting unethically.
- (c) Meredith's alternatives are:
 - 1. Miss the deadline but find the error causing the imbalance.
 - 2. Tell her supervisor of the imbalance and suffer the consequences.
 - 3. Do as she did and locate the error later, making the adjustment in the next quarter.

LO 4 BT: E Difficulty: Moderate TOT: 10 min. AACSB: Ethics AICPA PC: Professional Demeanor IMA: Business Applications

ETHICS CASE

The decision whether to fire Mr. Edmondson was the responsibility of Radio Shack's board of directors, which is elected by the company's shareholders to oversee management. The board initially announced its support for the CEO. After further investigation, the board encouraged Mr. Edmondson to resign, which he did. In contrast, when Bausch & Lomb's CEO offered to resign in a similar situation, the company's board refused to accept his resignation. Board members stated that they felt he was still the best person for the position.

Radio Shack says that although it did a reference check at the time of Mr. Edmondson's hiring, it did not check his educational credentials. Under the Sarbanes-Oxley Act, companies must now perform thorough background checks as part of a check of internal controls. The bottom line: your résumé must be a fair and accurate depiction of your past.

ALL ABOUT YOU

- (a) Students' responses to this question will vary. It is important that the steps that they identify be as specific as possible, and clearly directed toward achieving their goal. You may wish to ask a follow-up question asking them to explain how each step will assist them in achieving their goal.
- (b) There are many sites on the Internet that provide information about preparing a résumé. For example, you can find extensive resources at: http://www.rileyguide.com/resprep.html. Many schools also have resources in their placement centers or writing labs. The Writing Center at Rensselaer Polytechnic Institute provides useful, concise information on its website at http://www.ccp.rpi.edu/resources/careers-and-graduate-school/resumes. A wide variety of sample résumés can be found. For example, Monster.com provides samples for a wide variety of professions and situations at http://www.career-advice.monster.com/resumes-cover-letters/resume-samples/jobs.aspx.
- (c) It is important to provide accurate and complete documentation of all relevant training, education, and employment experiences so as to provide assurance to the potential employer, and also to enable that employer to do follow-up work. If you say you have certain skills, such as computer skills, try to substantiate the claim with recognized proof of proficiency. Make sure that all addresses and phone numbers are accurate and up-to-date. Also, ensure that the people you use as references have a copy of your résumé and cover letter, and that they are informed that you are interviewing so they know to expect a call.
- (d) See the sample résumés provided in the websites above for various format options. You might also mention to students that there are electronic résumé templates available on the Internet.

CT 2.11 CONSIDERING PEOPLE, PLANET AND PROFIT

- (a) The existence of three different forms of certification would most likely create confusion for coffee purchasers. It would be difficult to know what aspects of the coffee growing process each certification covered. Similarly, if there were multiple groups that certified financial statements, each with different criteria, it would be difficult for financial statement users to know what each certification promised.
- (b) The Starbucks certification appears to be the most common in that area. It has the advantage of having a direct link to the Starbucks coffee market. Although it does not guarantee that Starbucks will buy its coffee, it is a requirement that must be met before Starbucks will buy somebody's coffee. Note that the article states that the Starbucks certification "Incorporates elements of social responsibility and environmental leadership, but quality of coffee is the first criteria." The Smithsonian Bird Friendly is considered to have the strictest requirements and, as a result, appears to be the least common.
- (c) The certifications have multiple objectives including organic farming as a means to protect bird species, biodiversity and wildlife habitat. Some included requirements are to improve workers' living conditions, such as providing running water in worker housing, child labor regulations and education requirements. As mentioned above, the Starbucks certification has the potential financial benefit of making Starbucks a potential customer, which can stabilize farmers' earnings. Certifications can also be financially beneficial because companies can benefit from the positive relations effects of either producing or buying coffee produced using sustainable practices.
