Blooms: Remember Difficulty: Medium

Learning Objective: 02-05 Identify the effects of IFRS (International Financial Reporting Standards) on financial analysis.

- 6. The best indication of the operational efficiency of management is:
- A. net income.
- B. earnings per share.
- C. earnings before interest and taxes (EBIT).
- D. gross profit.

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Medium

Learning Objective: 02-01 Prepare and analyze the four basic financial statements.

Topic: 02-02 Income Statement

- 7. Which account represents the cumulative earnings of the firm since its formation, minus dividends paid?
- A. Share price
- B. Common stock
- C. Retained earnings
- D. Accumulated amortization

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Easy

Learning Objective: 02-05 Identify the effects of IFRS (International Financial Reporting Standards) on financial analysis.

Topic: 02-08 Statement of Cash Flows

- 8. A firm has \$3,500,000 in its common stock account and \$2,500,000 in its retained earnings account. The firm issued 100,000 shares of common stock. What was the original issue price if only one stock issue has ever been sold?
- **A.** \$35 per share
- B. \$25 per share
- C. \$60 per share
- D. Not enough information to tell

Accessibility: Keyboard Navigation

Blooms: Apply Difficulty: Medium

Learning Objective: 02-05 Identify the effects of IFRS (International Financial Reporting Standards) on financial analysis.

- 9. A firm has \$2,000,000 in its common stock account and \$20,000,000 in its retained earnings account. The firm issued 500,000 shares of common stock. What are accumulated earnings per share?
- A. \$4 per share
- B. \$44 per share
- **C.** \$40 per share
- D. \$5 per share

Accessibility: Keyboard Navigation

Blooms: Apply Difficulty: Medium

Learning Objective: 02-05 Identify the effects of IFRS (International Financial Reporting Standards) on financial analysis.

Topic: 02-08 Statement of Cash Flows

- 10. The major limitation of financial statements is:
- A. in their complexity.
- B. in their lack of comparability.
- C. in their use of historical cost accounting.
- D. in their lack of detail.

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Medium

Learning Objective: 02-03 Examine the limitations of the balance sheet as a measure of a firm's financial position.

Topic: 02-10 Determining Cash Flows from Operating Activities

- 11. Inflation has its major impact on balance sheets in which of the following areas?
- A. Inventory and accounts payable
- B. Plant and equipment and long-term debt
- C. Plant and equipment and inventory
- D. Interest expense and earnings per share

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Hard

Learning Objective: 02-03 Examine the limitations of the balance sheet as a measure of a firm's financial position.

Topic: 02-10 Determining Cash Flows from Operating Activities

12. "Inventory profits" are most likely to occur in an inflationary economy under which of the following inventory cost assumptions? A. Weighted average B. Specific item C. FIFO D. Lower of cost or market
Accessibility: Keyboard Navigation Blooms: Remember Difficulty: Medium Learning Objective: 02-03 Examine the limitations of the balance sheet as a measure of a firm's financial position. Topic: 02-10 Determining Cash Flows from Operating Activities
13. The orientation of book value per share is, while the orientation of market value per share is A. short term; long term B. future; historical C. historical; future D. long term; short term
Accessibility: Keyboard Navigation Blooms: Remember Difficulty: Medium Learning Objective: 02-05 Identify the effects of IFRS (International Financial Reporting Standards) on financial analysis. Topic: 02-08 Statement of Cash Flows
14. A firm with earnings per share of \$5 and a price-earnings ratio of 15 will have a share price of? A. \$20.00 B. \$75.00 C. \$3.00 D. The market assigns a stock price independent of EPS and the P/E ratio
Accessibility: Keyboard Navigation Blooms: Apply Difficulty: Easy Learning Objective: 02-01 Prepare and analyze the four basic financial statements. Topic: 02-04 Valuation Basics from the Income Statement

- 15. Earnings per share is:
- A. operating profit divided by number of shares outstanding.
- B. net income divided by number of shares outstanding.
- C. net income divided by shareholders' equity.
- **<u>D.</u>** net income minus preferred dividends divided by number of shares outstanding.

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Easy

Learning Objective: 02-01 Prepare and analyze the four basic financial statements.

Topic: 02-04 Valuation Basics from the Income Statement

- 16. Which of the following is an outflow of cash?
- A. Profitable operations
- B. The sale of equipment
- C. The sale of the company's common stock
- **<u>D.</u>** The payment of cash dividends

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Fasy

Learning Objective: 02-04 Explain the importance of cash flows as identified in the statement of cash flows.

Topic: 02-13 Combining the Three Sections of the Statement

- 17. Which of the following is an inflow of cash?
- A. Funds spent in normal business operations
- B. The purchase of a new factory
- **C.** The sale of the firm's bonds
- D. The retirement of the firm's bonds

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Easy

Learning Objective: 02-04 Explain the importance of cash flows as identified in the statement of cash flows.

Topic: 02-13 Combining the Three Sections of the Statement

- 18. Amortization is a source of cash inflow because:
- **A.** it is a tax-deductible noncash expense.
- B. it supplies cash for future asset purchases.
- C. it is a tax-deductible cash expense.
- D. it is a taxable expense.

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Easy

Learning Objective: 02-04 Explain the importance of cash flows as identified in the statement of cash flows.

Topic: 02-13 Combining the Three Sections of the Statement

- 19. Assuming a tax rate of 35%, amortization expenses of \$400,000 will:
- A. reduce income by \$140,000.
- **B.** reduce taxes by \$140,000.
- C. reduce taxes by \$400,000.
- D. have no effect on income or taxes, since amortization is not a cash expense.

Accessibility: Keyboard Navigation

Blooms: Apply

Difficulty: Easy

Learning Objective: 02-08 Explain the concept of tax savings for companies.

Topic: 02-24 Amortization (Capital Cost Allowance) as a Tax Shield

- 20. Assuming a tax rate of 30%, the after tax cost of interest expense of \$200,000 is:
- A. \$60,000.
- **B.** \$140,000.
- C. \$200,000.
- D. \$120,000.

Accessibility: Keyboard Navigation

Blooms: Apply Difficulty: Easy

Learning Objective: 02-08 Explain the concept of tax savings for companies.

Topic: 02-23 Cost of a Tax-deductible Expense

21. Gross profit is equal to:

A. sales minus cost of goods sold.

- B. sales minus (selling and administrative expenses).
- C. sales minus (cost of goods sold and selling and administrative expenses).
- D. sales minus (cost of goods sold and amortization expense).

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Easy

Learning Objective: 02-01 Prepare and analyze the four basic financial statements.

Topic: 02-02 Income Statement

- 22. The firm's price-earnings (P/E) ratio is not influenced by its:
- A. capital structure.
- B. earnings volatility.
- C. sales, profit margins, and earnings.
- **<u>D.</u>** Purchase of machinery.

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Fasy

Learning Objective: 02-01 Prepare and analyze the four basic financial statements.

Topic: 02-04 Valuation Basics from the Income Statement

- 23. Total shareholders' equity consists of:
- A. preferred stock and common stock.
- B. common stock and retained earnings.
- C. common stock and contributed surplus.
- <u>**D.**</u> preferred stock, common stock, contributed surplus, and retained earnings.

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Medium

Learning Objective: 02-01 Prepare and analyze the four basic financial statements.

Topic: 02-03 Return on Capital

- 24. The Balance Sheet cannot show:
- A. the current ratio.
- B. the value of common stock outstanding.
- C. the change in retained earnings.
- **D.** the price earnings relationship.

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Medium

Learning Objective: 02-03 Examine the limitations of the balance sheet as a measure of a firm's financial position.

Topic: 02-10 Determining Cash Flows from Operating Activities

25. Well prepared accounting statements:

<u>A.</u> let management know if cash flow from internal operations is large enough to make necessary equipment replacements.

- B. provide no new information to financial managers.
- C. determine the market price of common stock.
- D. eliminate the effects of inflation from decision making.

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Medium

Learning Objective: 02-03 Examine the limitations of the balance sheet as a measure of a firm's financial position.

Topic: 02-10 Determining Cash Flows from Operating Activities

26. The Glorious Vander Built Denim Slacks Company has taxable income of \$100,000. Assuming a 34% tax rate, what is the tax payable?

A. \$34,000

B. \$66,000

C. \$100,000

D. \$12,250

Accessibility: Keyboard Navigation

Blooms: Apply Difficulty: Easy

Learning Objective: 02-06 Outline the effect of corporate tax considerations on aftertax cash flow.

Topic: 02-20 Corporate Tax Rates

- 27. Book value of a firm:
- A. is usually the same as the firm's market value.
- B. is based on current asset costs.
- **C.** is the same as net worth.
- D. none of the choices are correct.

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Easy

Learning Objective: 02-05 Identify the effects of IFRS (International Financial Reporting Standards) on financial analysis.

Topic: 02-08 Statement of Cash Flows

- 28. A statement of cash flows allows a financial analyst to determine:
- A. whether a cash dividend is affordable.
- B. how increase in asset accounts have been financed.
- C. whether long-term assets are being financed with long-term or short-term financing.
- **D.** all of the choices are correct.

Accessibility: Keyboard Navigation

Short Answer Questions

129. What is an income statement and what is its purpose as it relates to financial management?

The income statement

- Measures the profitability of a firm over a time period (month, year)
- Assists financial decision making and analysis, utilizing past patterns for predicting the timing, uncertainty, and amount of future earnings and cash flows.

Accessibility: Keyboard Navigation

Blooms: Remember Difficulty: Easy

Learning Objective: 02-01 Prepare and analyze the four basic financial statements.

Topic: 02-02 Income Statement

130. What is the P/E ratio? Why is it an important ratio? List 3 factors that influence the P/E ratio.

The P/E ratio is Market share price/Earnings per share. This ratio allows comparison of the relative market value of many companies on the basis of \$1 of earnings per share. Firms expected to provide greater than average future returns often have P/E ratios higher than the market average P/E ratio. As investors' expectations for future returns change, a company's P/E ratio can shift substantially.

The price/earnings ratio (P/E ratio) of a firm is influenced by

- Earnings and sales growth
- Risk (business performance and debt-equity structure)
- Dividend payment policy
- Quality of management
- Many other factors

Learning Objective: 02-01 Prepare and analyze the four basic financial statements.

Topic: 02-04 Valuation Basics from the Income Statement

131. In the text, the author said that "Earnings are flexible." What was meant by this?

In efforts to meet earnings targets, accountants and managers had resorted to stretching accounting standards beyond their reasonable limits. Earnings can be managed or "manipulated" because professional accounting bodies allow latitude. Accruals, such as allowance for doubtful accounts or warranty expenses, and write-downs of assets (inventories and capital) are by their nature discretionary. Margins can also be managed, by classification of "overhead" as a cost of goods rather than administrative expenses. Management has this discretion due to its experience and the need to make estimates of many of the revenues and expenses that will flow through the firm.

Topic: 02-04 Valuation Basics from the Income Statement

133. Explain these terms found on a typical balance sheet. Provide examples of each if applicable.

Marketable securities, Accounts receivable, Inventory, Prepaid expenses, Investments, Plant and equipment, Accumulated amortization, Accounts payable, Notes payable, Accrued expense, Shareholders' equity.

Marketable securities are temporary investments of excess cash (lower of cost or current market value).

Accounts receivable include an allowance for bad debts (based on historical evidence) to suggest their anticipated collection value.

Inventory may be in the form of raw material, goods in process, or finished goods. **Prepaid expenses** represent future expenses that have already been paid (insurance premiums, rent).

Investments, unlike marketable securities, are a longer-term commitment of funds, including stocks, bonds, or investments in other corporations (often for acquisition).

Plant and equipment is identified as original cost minus accumulated amortization. **Accumulated amortization** is the sum of all past and present amortization charges on currently owned assets, whereas amortization expense is the current year's charge. **Accounts payable** represent amounts owed on open account to suppliers.

Notes payable are generally short-term signed obligations to the banker or other creditors. **Accrued expense** is an obligation incurred but payment has not yet occurred (additional wages for services provided and owed workers).

Shareholders' equity represents the total contribution and ownership interest of preferred and common shareholders.

134. List and describe the limitations of the balance sheet.

The values on the balance sheet are often subject to interpretation or revaluation.

- Values are stated on a historical or original cost basis, not market values (some assets may be worth considerably more than their original cost or may require many times the original cost for replacement).
- Accounting policy choice, which should be disclosed in the financial notes, will influence the recorded values.
- Contingent liabilities omitted from the balance sheet, or items such as intangibles that are included, may have a hard-to-determine influence on economic value. Contingent liabilities should be disclosed in footnotes on the balance sheet, alerting us to their possible impact.

Blooms: Remember Difficulty: Medium

Learning Objective: 02-03 Examine the limitations of the balance sheet as a measure of a firm's financial position.

Topic: 02-10 Determining Cash Flows from Operating Activities

135. What is a cash flow statement? What information can it provide? Why is a cash flow statement important to small business?

The cash flow statement reports changes in cash and cash equivalents (rather than working capital) resulting from the activities of the firm during a given period.

For many internal and external users of a firm's financial information, cash flow information is critical.

The cash flow statement allows an analyst to identify

- Cash flow generated from the firm's assets
- Financial obligations (interest and dividends)
- Commitment to new assets

The statement of cash flows can highlight

- The relative build up in short-term and long-term assets
- The means of financing used to support any growth in the firm's asset base
- The appropriateness and the future implications of the financing used

The cash flow statements for the small business are particularly important, as cash flow is more relevant to the firm's short-term survival than its reported income. One is likely to be concerned about the quality, timing, and amount of earnings, and hence the firm's ability to acquire assets and meet its obligations. In the very competitive corporate environment of today exacting cash flow analysis is essential for a firm's survival.

Learning Objective: 02-04 Explain the importance of cash flows as identified in the statement of cash flows.

Topic: 02-11 Determining Cash Flows from Investing Activities

137. Describe and briefly explain the steps used in the indirect method to compute cash flows from typical operating activities of a company.

We follow these procedures to **compute cash flows from operating activities** using the indirect method.

- Start with net income.
- Recognize that noncash deductions in computing net income should be added back to net income to *increase* the cash balance. These include such items as amortization, deferred income taxes, restructuring charges, and foreign exchange losses. **This produces cash flow from operations**.
- Next identify changes in noncash working capital.
- Recognize that increases in current assets are a use of funds and *reduce* the cash balance (indirectly)—as an example, the firm spends more funds on inventory.
- Recognize that decreases in current assets are a source of funds and *increase* the cash balance (indirectly)—that is, the firm reduces funds tied up in inventory.
- Recognize that increases in current liabilities are a source of funds and *increase* the cash balance (indirectly)—that is, the firm gets more funds from creditors.
- Recognize that decreases in current liabilities are a use of funds and *decrease* the cash balance (indirectly)—that is, the firm pays off creditors.

Blooms: Understand Difficulty: Hard

Learning Objective: 02-04 Explain the importance of cash flows as identified in the statement of cash flows.

Topic: 02-13 Combining the Three Sections of the Statement

138. Define free cash flow. Explain what it is equal to and why it is important a finance manager needs to know the value of free cash flow.

Free cash flow is equal to:

Cash flow from operating activities

Minus: Capital expenditures (required to maintain the productive capacity of the firm) Minus: Dividends (needed to maintain the necessary payout on common stock and to cover any preferred stock obligation)

The concept of free cash flow forces the stock analyst or banker not only to consider how much cash is generated from operating activities, but also to subtract out the necessary capital expenditures on plant and equipment to maintain normal activities. Similarly, dividend payments to shareholders must be subtracted out, as these dividends must generally be paid to keep shareholders satisfied. The balance, free cash flow, is then available for *special financial activities*. In the last decade, special financing activities have often been synonymous with leveraged buyouts, in which a firm borrows money to buy its stock and take itself private with the hope of restructuring its balance sheet and perhaps going public again in a few years at a higher price than it paid. The analyst or banker normally looks at *free cash flow* to determine whether there are sufficient excess funds to pay back loans associated with special financial activities.

Cash	\$70,000	Accounts payable	\$100,000
Accounts receivable	150,000	Notes payable	120,000
Inventory	280,000	Bonds payable	300,000
Total current assets	500,000	Total liabilities	520,000
Plant and equipment	1,250,000	Equity	
Less: acc. amortization	250,000	Common stock	500,000
Net plant and Equipment	1,000,000	Retained earnings	480,000
		Total equity	980,000
Total assets	1,500,000	Total liab. & equity	\$1,500,000

Sales for 20X5 were \$2,000,000, with the cost of goods sold being 55% of sales. Amortization expense was 10% of the gross plant and equipment at the beginning of the year. Interest expense was 9% on the notes payable and 11% on the bonds payable. Selling, general, and administrative expenses were \$200,000 and the firm's tax rate is 40%.

- A) Prepare an income statement.
- B) If the dividend payout ratio for Epics is 35%, what is the value of the retained earnings account on December 31, 20X5?

A) Income Statement		B)	
Sales	\$2,000,000	\$318,720	Net Income
Less: Cost of Goods Sold	<u>1,100,000</u>	<u>x .35</u>	Payout ratio
Gross Profit	900,000	\$111.552	Dividends Paid
Less: Selling, general and administrative expense	200,000		
Amortization Expense	125,000	_	_
EBIT	575,000	\$318,720	Net Income
Less: Interest Expense (10,800 + 33,000)	43,800	111,552	Dividends Paid
EBT	531,200	207,168	Amount Retained
Less: Taxes (40%)	212,480	<u>+480,000</u>	Retained Earnings 04
Net Earnings	\$318,720	\$687,168	Retained Earnings 05

Topic: 02-02 Income Statement Topic: 02-03 Return on Capital

Topic: 02-04 Valuation Basics from the Income Statement

Topic: 02-23 Cost of a Tax-deductible Expense

147. Given the financial information for the A.E. Neuman Corporation,

- A) Prepare a Statement of Cash Flows for the year ended December 31, 20X5.
- B) What is the dividend payout ratio?
- C) If we increased the dividend payout ratio to 100%, what would happen to retained earnings?

A.E Neuman Corporation	Balance Sheet	
Assets	20X4	20X5
Cash	\$45,000	\$50,000
Marketable Securities	175,000	160,000
Accounts Receivable	240,000	220,000
Inventories	230,000	275,000
Investments	70,000	55,000
Total current assets	\$760,000	\$760,000
Plant and Equipment	1,300,000	1,550,000
Less Accumulated Amortization	450,000	600,000
Net plant and Equipment	\$850,000	\$950,000
Total Assets	1,610,000	1,710,000

Chapter 02 - Review of Accounting

LIABILITIES AND SHAREHOLDERS' EQUITY			
Accounts payable	\$110,000	\$85,000	
Notes payable	65,000	10,000	
Accrued Expenses	30,000	5,000	
Income Taxes Payable	5,000	10,000	
Bonds Payable (2016)	800,000	900,000	
Common Stock (100,000 shares)	200,000	200,000	
Retained Earnings	400,000	500,000	
Total Liabilities' and Shareholders' Equity	\$1,610,000	\$1,710,000	

A.E. Neuman Corporation Income Statement	
For the Year Ended December 31, 20X5	
Sales	\$ 5,500,000
Less: Cost of Goods Sold	4,200,000
Gross Profit	1,300,000
Less: Selling, General & Administrative Expenses	260,000
Operating profit	1,040,000
Less: Amortization Expense	150,000
Earnings Before Interest and Taxes	890,000
Less: Interest Expense	90,000
Earnings Before Taxes	800,000
Less: Taxes (50%)	400,000
Net Income	\$ 400,000

A)

Chapter 02 - Review of Accounting

Operating Activities	
Net Income (earnings after taxes)	\$400,000
Add items not requiring on outlay of cash:	
Amortization	<u>150,000</u>
Cash flow from operations	550,000
Change in non-cash working capital:	
Decrease in accounts receivable	20,000
Increase in inventories	(45,000)
Decrease in accounts payable	(25,000)
Decrease in notes payable	(55,000)
Decrease in accrued expenses	(25,000)
Increase in income taxes payable	5,000
Net Change in non-cash working capital	125,000
Cash provided by operating activities	425,000
Investing Activities	
Decrease in investments	15,000
Increase in plant & equipment	(250,000)
Cash used in investing activities	(235,000)
Financing Activities	
Increase in bonds payable	100,000
Dividends paid	(300,000)
Cash used in financing activities	(200,000)
Net increase in cash and equivalents during year	(10,000)
Cash and equivalents, beginning of year	220,000
Cash and equivalents, at year end	\$210,000

B)

Dividend payout ratio	=	Dividends paid, 20X5
		Net income, 20X5
	= \$300,000	= 0.75=75%
	\$400,000	

C) The 20X5 value for retained earnings would decrease by \$100,000. In addition, assets would have to decrease by \$100,000 or other liabilities would have to increase by the same amount.

Blooms: Apply Difficulty: Medium

Learning Objective: 02-06 Outline the effect of corporate tax considerations on aftertax cash flow.

Topic: 02-20 Corporate Tax Rates

149. Calculate the after tax cost of the interest. Assume the company has issued 10,000 bonds with a coupon rate of 8% and a face value of \$1,000 per bond, and the company has a marginal tax rate of 42%.

Annual interest	=	10,000 × \$1,000 × 8%
	=	\$800,000
After tax cost		$\$800,000 \times (1 - \text{tax rate})$
	=	$\$800,000 \times (1-42)$
	=	\$464,000

Topic: 02-21 Effective Tax Rate Examples

150. ElectroWizard Company produces a popular video game called Destructo, which sells for \$32. Last year ElectroWizard sold 50,000 Destructo games, each of which costs \$6 to produce. ElectroWizard incurred selling and administrative expenses of \$80,000 and amortization expense of \$10,000. In addition, ElectroWizard has a \$100,000 loan outstanding at 12%. Its tax rate is 40%. There are 100,000 common shares outstanding. Prepare an income statement for ElectroWizard in good form (include EPS).

ElectroWizard Company Income Statement for the year ended 12/31/_					
Sales (50,000 @ \$32)		\$1,600,000			
Less: Cost of Goods Sold		300,000			
Gross Profit		1,300,000			
Less: Operating Expenses					
Selling and administrative	\$80,000				
Amortization	10,000	90,000			
Operating Profit (EBIT)		1,210,000			
Less: Interest expense (\$100,000 @ 12%)	12,000				
Earnings Before Taxes		1,198,000			
Less: Taxes @ 40%		479,200			
Net Income		\$718,800			
Common Shares		100,000			
Earnings Per Share		\$7.189

- 151. Identify each of the following as increasing (+) or decreasing (-) cash flows from operating activities (O), investment activities (I), or financing activities (F). (EXAMPLE: the sale of plant and equipment would increase cash flows from investing activities, and the correct answer would be + I).
- 1. Increase in accounts payable
- 2. Decrease in inventory
- 3. Net income from operations
- 4. Payment of common share dividends using ASPE
- 5. Sale of preferred stock
- 6. Increase in accrued expenses
- 7. Purchase of new equipment
- 8. Decrease in current portion of long term debt
- 9. Increase in accounts receivable
- 10. Decrease in notes payable
- 11. Increase in net worth
- 12. Increase in long-term liabilities
- 13. Increase in investments
- 14. Decrease in marketable securities
- 15. Reduction in retained earnings
- 16. Repurchase of common shares outstanding
- 17. Increase in prepaid expense
- 18. Decrease in income taxes payable
- 19. Retirement of long term bonds payable

20. Sale of new common stock

- +O 1. Increase in accounts payable
- +O 2. Decrease in inventory
- +O 3. Net income from operations
- -F 4. Payment of common share dividends using ASPE
- +F 5. Sale of preferred stock
- -O 6. Increase in accrued expenses
- -I 7. Purchase of new equipment
- <u>-O</u> 8. Decrease in current portion of long term debt
- -O 9. Increase in accounts receivable
- -O 10. Decrease in notes payable
- +F 11. Increase in net worth
- <u>+F</u> 12. Increase in long-term liabilities
- -I 13. Increase in investments
- +O 14. Decrease in marketable securities
- -F 15. Reduction in retained earnings
- -F 16. Repurchase of common shares outstanding
- -O 17. Increase in prepaid expense
- -O 18. Decrease in income taxes payable
- <u>-F</u> 19. Retirement of long term bonds payable
- +F 20. Sale of new common stock
