Principles of Macroeconomics 8th Edition by Frank CH01

ANSWERS ARE LOCATED IN THE SECOND PART OF THIS DOCUMENT

1) Economics is best defined as the study of

1) _____

- A) inflation, interest rates, and the stock market.
- B) supply and demand.
- C) how people make choices in the face of scarcity and the implications of those choices for society as a whole.
- D) the financial concerns of businesses and individuals.

Topic : Three Important Decision Pitfalls

Accessibility : Screen Reader Compatible

50) Your classmates from the University of Chicago are planning to go to Miami for spring break, and you are undecided about whether you should go with them. The round-trip airfare is \$600, but you have a frequent-flyer coupon worth \$500 that you could use to pay part of the airfare. All other costs for the vacation are exactly \$900. The most you would be willing to pay for the trip is \$1,400. Your only alternative use for your frequent-flyer coupon is for your trip to Atlanta two weeks after the break to attend your sister's graduation, which your parents are forcing you to attend. The Chicago-Atlanta round-trip airfare is \$450. If you do not use the frequent-flyer coupon to fly to Miami, should you go to Miami?

50) _____

- A) Yes, your benefit is more than your cost.
- B) No, your benefit is less than your cost.
- C) Yes, your benefit is equal to your cost.
- D) No, because there are no benefits in the trip.

61) Matt has decided to purchase his textbooks for the semester. His options are to purchase the books online with next-day delivery at a cost of \$175, or to drive to campus tomorrow to buy the books at the university bookstore at a cost of \$170. Last week he drove to campus to buy a concert ticket because they offered 25 percent off the regular price of \$16. Given that driving to campus to buy the concert ticket was rational for Matt, Matt should

61) _____

Principles of Macroeconomics 8th Edition by Frank CH01

A) not drive to campus to buy the books because the \$5 he would save is only two percent of the cost of the books, and that is much less than the 25 percent he saved on the concert ticket.

B) drive to campus to buy the books because the books are cheaper at the bookstore than online.

C) drive to campus to buy the books because the \$5 he would save is more than he saved by driving to campus to buy the concert ticket.

D) not drive to campus to buy the books because the cost of gas and his time must certainly be more than the \$5 he would save.

CPU GHz	Total Benefit	Marginal Benefit	Total Cost	Marginal Costs
2.0	\$ 1,000		\$ 900	
2.5	\$ 1,400			\$ 100
3.0		\$ 300	\$ 1,200	
3.5	\$ 1,900		\$ 1,500	
4.0	\$ 2,000			\$ 400

Choosing a 3.5GHz computer would be irrational because

108) _____

Principles of Macroeconomics 8th Edition by Frank CH01

- A) its marginal benefit is less than its marginal cost.
- B) its marginal benefit is equal to its marginal cost.
- C) it is impossible to tell the difference compared to a 3.0GHz computer.
- D) its marginal benefit is greater than its marginal cost.

109) Jack has a ticket to see Post Malone for which he paid \$30 yesterday. He takes an unpaid day off from work to get ready for the concert. When he arrives at the concert, five different people offer him \$70 for his ticket. Jack decides to keep his ticket. At the time he makes this decision, his opportunity cost of seeing Post Malone is

109) _____

- A) \$30 plus his forgone earnings.
- B) \$40.
- C) \$70.
- D) \$70 plus his forgone earnings.

111) You won a free ticket to see the latest superhero movie this Friday night (which you can costlessly resell for its face value of \$15). Your favorite band is also performing on Friday and is your only alternative activity. Friday is your last chance to see either the movie or the band. Tickets to see your favorite band cost \$30, and on any given day, you would be willing to pay as much as \$50 for a ticket. Based on this information, what is your opportunity cost of going to see the movie on Friday?

111) _____

- A) \$0
- B) \$30
- C) \$35
- D) \$50

Principles of Macroeconomics 8th Edition by Frank CH01

112) You want to buy a TV that regularly costs \$250. You can either buy the TV from a nearby store or from a store that's downtown. Relative to going to the nearby store, driving downtown involves additional time and gas. The downtown store, however, has a 10 percent off sale this week. Last week you drove downtown to save \$20 on some concert tickets, a 15 percent savings. Should you drive downtown to buy the TV?

112) _____

- A) Yes, because you will save 10 percent, which is better than nothing.
- B) No, because you will save more than \$20.
- C) Yes, because you will save more than \$20.
- D) No, because you will only save 10 percent, which is less than 15 percent.

149) Enrique can either drive to work, which takes half an hour and uses \$1.50 worth of gas, or take the bus, which takes an hour and costs \$1. How should Enrique get to work?

149) _____

- A) Enrique should take the bus because it costs \$0.50 less than driving.
- B) Enrique should drive because it saves half an hour relative to taking the bus.
- C) Enrique should drive if saving half an hour is worth \$0.50 or more.
- D) Enrique should take the bus if saving half an hour is worth \$0.50 or more.

Difficulty : 03 Hard

AACSB : Analytical Thinking

Bloom's : Analyze

Learning Objective : 01-04 Explain and apply the Incentive Principle, which says that if you want to

Topic : Economic Naturalism

Accessibility : Screen Reader Compatible

150) You have two options for how to spend the afternoon. You can either go see a movie with your roommate or work as a tutor for the Math Department. From experience, you know that going to see a movie gives you \$20 worth of enjoyment, and with your student discount, a movie ticket only costs \$12. If you spend the afternoon working as a math tutor, you will get paid \$45. On a typical day, you wouldn't be willing to spend the afternoon working as a math tutor for less than \$35. What is your opportunity cost of seeing a movie this afternoon?

150) _____

- A) \$8
- B) \$12
- C) \$22
- D) \$57

151) You have two options for how to spend the afternoon. You can either go see a movie with your roommate or work as a tutor for the Math Department. From experience, you know that going to see a movie gives you \$20 worth of enjoyment, and with your student discount, a movie ticket only costs \$12. If you spend the afternoon working as a math tutor, you will get paid \$45. On a typical day, you wouldn't be willing to spend the afternoon working as a math tutor for less than \$35. What is your economic surplus from working as a math tutor instead of going to the movies?

151) _____

- A) \$8
- B) \$2
- C) \$12
- D) \$10
