A) HIV/AIDS
B) Obesity
C) Zika virus
D) Ebola virus
Ans: A
Complexity: Easy
Ahead: HIV/AIDS
Subject: Chapter 2
Title: Health Issues and Behavior

True/False

1. True or False? Because the trends in overweight/obesity are recent, most agree that biological factors are the cause rather than interactions between people's behavior and the environment.
Ans: False
Complexity: Easy

Ahead: Obesity
Subject: Chapter 2
Title: Health Issues and Behavior

2. True or False? Explanations for the relatively sudden and "epidemic" increases in body weight among Americans and populations in other countries generally emphasize lifestyles associated with increased overall energy consumption and inactivity.
Ans: True
Complexity: Easy
Ahead: Obesity
Subject: Chapter 2
Title: Health Issues and Behavior

3. True or False? Although many behaviors may threaten long-term health, the immediate benefits of risky behavior may be seen to enhance one's state of well-being.
Ans: True
Complexity: Easy
Ahead: Obesity
Subject: Chapter 2
Title: Health Issues and Behavior

4. True or False? In the spirit of an ecological approach, youth risk behaviors such as violence have been viewed as health disparities, where involvement in violence and the causes of involvement differ by the socioeconomic status of particular groups.
Ans: True
Complexity: Easy
Ahead: Youth Violence
Subject: Chapter 2
Title: Health Issues and Behavior
