TRUE/FALSE

1 : ?Professionalism is the skill, good judgment, and polite behavior that is expected from a person who is trained to do a job well.

A : true

B : false

Correct Answer : A

2 : Assertiveness taken to the extreme becomes friendly.?

A : true

B : false

Correct Answer : B

3 : A trustworthy attitude includes three main ingredients: intelligence, integrity, and morality.?

A : true

B : false

Correct Answer : B

SHORT RESPONSE

4 : How do you define self-esteem??

Correct Answer : Simply stated, self-esteem it is how you feel about yourself. Other words for self-esteem are self-belief or self-concept. Regardless of the term used, this is probably one of the most important questions you need to answer in your life. The way you feel about yourself affects every aspect of your life. In fact, many studies show that there is a direct relationship between self-esteem and academic performance.?

5 : Describe the importance of self-confidence and how it might impact patients.?

Correct Answer : Being self-confident means you know yourself inside and out. You have assessed your strengths and weaknesses and are confident in what you can do. You believe in your ability to do things and make things happen in a positive manner. Patients react positively to a self-confident attitude; even if you are nervous, you need to put on a “professional face” that is the product of preparation and self-confidence.?
