a. True

b. False

ANSWER: a

40. When developing an action plan, you should identify noncritical steps and push them to the top of your list.

a. True

b. False

ANSWER: b

41. Journalists typically ask six questions when tracking a story: Who? What? Where? When? Why? and How? Identify which of these questions are lower-level questions and why, and which are higher-level questions and why.

ANSWER: Responses will vary. Correct answers should indicate that Who? What? Where? and When? are lower-level questions because they focus on basic facts and information. How? and Why? are higher-level questions because they require you to connect and work with those basic facts.

42. What four guidelines should you follow when you have a decision to make or argument to consider using higher-level thinking skills?

ANSWER: Answers will vary. Correct answers should identify the four guidelines for higher-level thinking as gathering and evaluating information, keeping an open mind, applying what you've learned, and reviewing your outcomes.

Name: _____ Class: _____ Date: _____

Chapter 02

43. Imagine that you are taking an introductory Italian class. You have never taken a foreign language class, and you become overwhelmed when you realize that every aspect of the class, including opening greetings and instructions on quizzes, is in Italian. Describe how you could use three higher-level thinking skills to improve your performance in the class.

ANSWER: Answers will vary. Correct answers should identify three higher-level thinking skills and explain how those skills could improve students' performance in the class. Some examples may include using comparing and contrasting of words to understand similarities and differences in the language. Students may also prioritize which vocabulary or grammatical rules they should study first. Other valid responses are also acceptable.

44. What are the six levels of Bloom's taxonomy in order, from lowest to highest?

ANSWER: Correct answers should identify the six levels of Bloom's taxonomy in order, from lowest to highest as Remember, Understand, Apply, Analyze, Evaluate, and Create.

45. Identify and describe the five steps of goal setting.

ANSWER: Answers may vary. Correct answers should identify the five steps of goal setting as gather information, set a SMART goal, make an action plan, list barriers and solutions, and act and evaluate outcomes. Correct responses should also describe the process involved in each of these five steps.

46. Describe the five characteristics of a SMART goal.

ANSWER: Answers may vary. Correct answers should indicate that SMART goals are specific, measurable, achievable, relevant to you personally, and time-limited and describe each of these characteristics in relation to the goal-setting process.

47. Describe three of the short-term goals that you will need to achieve in order to accomplish your long-term goal of graduating from college.

ANSWER: Answers will vary. Correct answers should indicate the use of SMART goals that are specific, measurable, achievable, relevant, and time-limited. Some examples of short-term goals that can be applied to graduating from college may include finishing prerequisite classes by a certain date or semester, passing midterm examinations, and enrolling in preparatory courses for any cumulative degree assessments (if applicable). Other valid responses are acceptable.

48. Imagine that one of your short-term goals is to get an A on an upcoming midterm exam. Discuss the steps you will take to achieve this goal.

ANSWER: Answers will vary. Correct answers should include use of SMART goals that are specific, measurable, achievable, relevant, and time-limited. Examples may include attending a certain number of tutoring sessions, studying a certain number of lessons or vocabulary each night, or creating self-study guides for each chapter. Other valid responses are acceptable.

49. Discuss three of the barriers you are likely to face as you work to achieve your long-term goal of earning a college degree, and describe what you can do to overcome these barriers.

ANSWER: Answers will vary. Correct answers should recognize that a barrier is something that will prevent you from making progress toward a goal. Examples may include poor time management, lack of resources, family demands, or work demands.

Name: _____ Class: _____ Date: _____

Chapter 02

50. Imagine that one of your long-term goals is to own your own restaurant. Develop a Personal Success Plan (using the model in the text) around this goal.

ANSWER: Answers will vary. Correct answers should show an understanding of the steps to creating a personal success plan, including identifying a goal, making the goal SMART, creating an action plan, listing barriers and solutions, and acting and evaluating outcomes.
