30. What are two of the key issues that affect a facility manager's role?

Correct Answer:  
facility size and available workforce

31. List four of the nine future facility manager competencies highlighted by the International Facility Management Association.

Correct Answer:  
operations and management, facility function, real estate, finance, human and environmental factors, quality assessment and innovation, planning and project management, communication, and technology

32. List three of the eight future skills that will be needed by facility managers.

Correct Answer:

linking facility management to strategy, emergency preparedness, change management, sustainability, emerging technology, globalization, aging buildings, and broadening diversity in the workforce

33. What is the primary purpose of a facility manager?

Correct Answer:

ensuring the safety of all employees and guests

34. List at least three of the most important skills a manager needs to master.

Correct Answer:

infuse everyone in the organization with pride, delegate to others, understand what the fans want, communicate with a sense of purpose, and track and measure success

35. What is the primary cause of poor performance in a facility?

Correct Answer:

poor planning

36. What does a goal need in order to be effective?

Correct Answer:

It needs to be measurable.

37. What does management by objectives (MBO) refer to as a managerial function?

Correct Answer:

The MBO theory focuses on managers' developing realistic, achievable, and motivating objectives with employee input. this process is designed to turn facility goals and objectives into group and individual goals and objectives. thus, objectives should not be developed in a vacuum and are more effective when there is institutional buy-in.

38. How do organizational charts in today's economic environment differ from those in the past?

Correct Answer:

With the decline in the number of middle managers, there is a new focus on flatter organizational charts; as a result, a manager might supervise more workers than managers in the past did.

39. What is involved in implementing a managerial plan?

Correct Answer:

Implementing refers to executing goals and objectives with the appropriate personnel.
