Correct answer: True

Essay (2)

Q64. [Essay]

Describe Human Resource Management (HRM).

Suggested answer: Sample response: Human Resource Management refers to the constellation of decisions and actions associated with managing individuals throughout the employee lifecycle to maximize employee and organizational effectiveness in attaining goals. This includes functions that range from analyzing and designing jobs; managing diversity and complying with local, national, and global employee laws; recruiting individuals to apply for jobs; selecting individuals to join organizations; training and developing people while they are employed; helping to manage their performance; rewarding and compensating employee performance while maintaining healthy labor relations and helping to keep them safe; and managing their exit, or departure, from the organization. Ultimately, HRM is about making decisions about people. This decision-making process involves many questions that those within an organization must ask and answer. Over time, the answers may change as the firm experiences growth or decline, external factors change, or the organizational culture evolves

Q65. [Essay]

Based on what you have learned from the textbook, write a job description for a human resource manager including job duties, education and experience requirements, and a salary.

Suggested answer: Sample response: Varies but should include job duties like planning, directing, and coordinating administrative functions; overseeing recruiting, interviewing, and hiring activities; consulting on strategic planning; and serving as a liaison between management and employees. Education is a bachelor's degree and experience required is 5 years. A starting salary is about \$110,000.

Hard

Multiple Choice (7)

Q66. [Multiple Choice]

Suzanne, a human resource manager, interviews Carol. Carol shares that she currently works at ABC Hospital. Suzanne has hired others from ABC Hospital before, and they have performed well. She decides to hire Carol instead of another equally qualified applicant from an unknown hospital based on her past experience hiring from ABC Hospital. This is an example of _____ bias.

a) availability ✓ correct

b) anchoring

c) overconfidence

d) ethical

Q67. [Multiple Choice]

Which of the following is an example of availability bias?

- a) The human resource manager's gut instinct tells him a potential hire is not right, so he looks for evidence to confirm his suspicion.
- b) The human resource manager is looking for a replacement for an excellent former employee, so she compares all potential hires to that employee.
- c) The human resource manager hires someone because she is a recent graduate from a university that other successful hires have come from. ✓ correct**
- d) The human resource manager carefully weighs the information about a new hire before making a decision.

Q68. [Multiple Choice]

Which of the following is an example of anchoring bias?

- a) The human resource manager's gut instinct tells him a potential hire is not right, so he looks for evidence to confirm his suspicion.
- b) The human resource manager is looking for a replacement for an excellent former employee, so she compares all potential hires to that employee. ✓ correct**
- c) The human resource manager hires someone because she is a recent graduate from a university that other successful hires have come from.
- d) The human resource manager carefully weighs the information about a new hire before making a decision.

Q69. [Multiple Choice]

Which of the following is an example of overconfidence bias?

- a) The human resource manager's gut instinct tells him a potential hire is not right, so he looks for evidence to confirm his suspicion. ✓ correct**
- b) The human resource manager is looking for a replacement for an excellent former employee, so she compares all potential hires to that employee.
- c) The human resource manager hires someone because she is a recent graduate from a university that other successful hires have come from.
- d) The human resource manager carefully weighs the information about a new hire before making a decision.

Q70. [Multiple Choice]

Damaris attended a mandatory training at her company. At the end of the training, Damaris was tested on what she learned and did not pass the test. The company values honest feedback and coaching. Given the stated values of the company, what could you assume happened next?

- a) Damaris was provided honest feedback and asked to resign from the company.
- b) Damaris was provided feedback and demoted to a role that better matches her skill set.
- c) Damaris was provided feedback and suspended to allow time for her to study.
- d) Damaris was provided feedback and coached to master the necessary knowledge and skills. ✓ correct**

Q71. [Multiple Choice]

- a) Companies are more hesitant to hire women because of concerns about legal claims.
- b) Women and people of color are more likely to participate in a gig economy than White males.
- c) African American male employees make 76 cents for every dollar a Caucasian male makes.
- d) Only a handful of large multinational corporations are run by CEOs of Hispanic descent. ✓ correct**

Q72. [Multiple Choice]

Shane provides human resource management job applicants a self-assessment to rate themselves on their ability to communicate effectively and manage relationships with colleagues. This is an attempt to assess the _____ competency cluster.

- a) business competencies
- b) interpersonal competencies ✓ correct**
- c) core technical competencies
- d) leadership competencies

Essay (3)

Q73. [Essay]

Describe how HRM systems can be used to overcome one of the following biases: availability, anchoring, or confirmation.

Suggested answer: Sample response: Varies but should address the following biases: Availability bias: The tendency to rely more on information that is readily available to us and thus we discount alternative information. Anchoring bias: The tendency to rely too much on the first piece of information given. Overconfidence bias: The tendency to seek confirmation of one's own beliefs or expectations.

Q74. [Essay]

Provide an example of each type of culture included in the Competing Values Framework. Analyze why the example works for the assigned culture.

Suggested answer: Sample response: Varies but should include the types of cultures: clan cultures, adhocracy cultures, market cultures, and hierarchy cultures. Example should also be included along with an analysis as to why the example works for that type of culture. Clan cultures are collaboration-oriented and are characterized by valuing being cohesive, people-oriented, team players, and empowering employees. An example could be a surgical team at a hospital. Surgical teams need to work together to collaborate toward a common goal. They must be team players because they need to count on one another and should be empowered to act in the best interest of their patients. Adhocracy cultures focus on creating and emphasize being entrepreneurial, flexible, taking risks, and being creative. An example would be a start-up technology company. A successful start-up is made up of people who are comfortable building a business from the ground up and taking the necessary risks to develop a competitive edge. They must also be creative and able to think outside of the box to differentiate themselves in the market and approach problems in a way that maximizes resources, rather than depletes them. Market cultures are characterized by competition and value being aggressive, competitive, and customer-oriented. An example could be an insurance company's sales organization. Insurance companies need aggressive, competitive sales teams to win market share and need to be customer service to sustain customers over the long term. Hierarchical cultures focus on controlling and value being efficient, timely, and consistent. A factory is an example of a hierarchical culture. Control over processes and procedures maximizes efficiency and safety, standardizes work for consistency, and reduces errors and other sources of waste preventing timely rework.

Q75. [Essay]

Apply what you have learned about changing demographics to show the impact on the work of human resource management.

Suggested answer: Sample response: Varies but should include a statement about changing demographics being one of the largest factors impacting human resource management work. Answers should also apply how an aging workforce and increasing diversity impact the way human resource management is delivered. For example, human resource management teams need to plan for baby boomers retiring. Another example includes how human resource management addresses the issue of equal pay for equal work among members of different races.
